

It started at daybreak and is still smug at 11:00 A.M. 640818-78  
 squirrels at camp. Caught one *Peromyscus maniculatus* in trap set at camp. Several trees  
 Shortly after sun hit tent a hymenopter (black wasp about 1 inch or less  
 long and large abdomen) fed on mosquitos at entrance of tent. It  
 consumed one about every 20 seconds. Sometime it would fly out of  
 entrance of tent with a mosquito and then return. It hummed  
 continually and struck at mosquitos at 6 or more inches. One red-  
 breasted merganser at camp this A.M. about 7:30 P.M. Took  
 photo 640818-1 of many Pauline at landing rock at camp. Photo at  
 10:00 A.M. Regular exposure is 60 x 12.7. Warbling vireo stopped

Calling at 11:30 A.M. Redhatched at camp. Yellow-shafted flicker flew by.  
 Photo 640818-2 of selected flowering plants in marshy bay.

 " 640818-19 cones of 2 needle (1 inch long pines) *Pinus banksiana* (jack pine)  
 " 640818-20 ~~leaf~~ liverwort (close up)  
 " 640818-21 liverwort  
 " 640818-22 from camp  
 " 640818-23 Jay in cone at camp (and 640818-23a)  
 " 640818-24 Corn bread in reflector oven

at 6:00 P.M. outside temp in shade = 73°F. Temp water at 2 inches  
 deep = 70°F. Ph. 5. This evening fish 1 hour around shoreline  
 and had only one strike: Late this evening beaver and muskrat in  
 water near camp. One bald eagle (young) calling from <sup>large</sup> island to west  
 most of day. Noted in air twice and seemed to be larger than adult.

Lake III, Minnesota (Camp 2)

Aug 18, 1964

This morning caught a *Peromyscus leucopus*. It measured?  
 640819-1 *Peromyscus leucopus*. 160-75-22-18-20 gms ♂ record only.

Photo 640819-2 of this mouse. From dense timber + fallen log, moss + lichens.
