

On trip to top of Bald mt noted 1 pika, no marmots, 3 leucostictic. These were the only farms noted. At mirror lake noted the arctic three-toed woodpecker, 6 white crowned sparrows, 4 grey headed junco or a total of 11 birds only. I do not remember there being so few birds in this area. At Trial Lake we caught 2 trout and then proceeded to Provo River above Wildwood where we caught 8 more trout. Water ouzel on river at R.R. bridge. Two nests of the golden eagle still in cliffs on S side of river near Wildwood. Returned to Provo & met Bob Bee who was on his way to Mojo in the NW. Dad & I visited Ross Christensen at B.Y.U. Archeological reports can be secured thru individual authors. This summer had excavated in Nyukatlan, Mexico.

Sept 1, 1965

Annette, Chris, Polly, Jimmy & I visited Timpanogas Cave. met Mr Walker & Hunzinger the naturalist. noted Clark's Crow, green-tailed towhee, Steeler jay, mt. Chickadee and Townsend solitaire. One rock wall of trail (1/2 way up had 2 granite rocks (1 sq feet each) and could only have been placed there by glacier or creek deposit in early erosional stage of American Fork Canyon. Hunzinger showed me a hand size rock of granite which was found in the cave. Recent flash floods from N side blocked off creek bed in several places. new visitor center in direct line of fallen rocks from S side of Canyon. This evening Chris, Polly, Jimmy & I to Deer Creek Reservoir at Provo Rvr bridge for camping & fishing. Striped perch on every cast. Polly caught a trout (rainbow) 18" long. California gulls in area.
