 2:00 P.M. Approx 300 ducks flying below dam, probably in
 protected area. 6 red-tails between dam & junction 390 on
 177. marsh hawk 2 mi. E of junction. 80 geese near
 girl scout camp. Left camp at 3:15 and arrived Lawrence
 at 6:30 P.M. at mileage 105 or 281 miles round trip. At
 the bend of road east of Belvoir bridge noted a great horned
 owl in the road (after dark). Route travelled: Clinton,
 Richland, Auburn, Eskridge, Alta Vista, Manhattan. Returned
 same way. The girl scout camp is east on 390 from 177, or
 6 mi. SE Randolph. In summary, the greatest concentration
 of red-tails were more common in deciduous - prairie area
 rather than prairie. Fewer birds of all kinds in prairie area.
 There is an increase in large flocks of starling, cowbirds
 etc, than earlier in season. Road hills uncommon.
