

and then he leaves. A mirror in back of the cow may
may attract him into the cow where he will come in
contact with the trigger. No ducks came in tonight.

Species collected

522 *Dipodomys o. utahensis*. This animal died
in trap from exposure and possibly this tissue
will show post mortem changes. Saved skull
preserved reproductive system.

sent to
Ken.
L. 240
T. 136 ♂
F. 41

523 *Dipodomys o. utahensis*. Preserved reproductive
system but may show p. m. changes. Dead five hours
but in low temperatures. Saved skull

L. 255
T. 142 ♂
F. 41.5

524 *Dipodomys o. utahensis*. Preserved rep. system.

L. 254
T. 141 ♂
F. 42

Dead for six hours. Preserved in
early morning temperatures; Saved
skull.

525 *Dipodomys o. utahensis*. Preserved rep. system

L. 240
T. 136 ♀
F. 39.5

Dead six hours before system was
taken. Saved skull.

526 *Dipodomys o. u.* Preserved reproductive system from
live animal. Saved skull.

L. 248 m.m
T. 141 m.m ♀
F. 40 m.m

527 *Dipodomys o. u.* Preserved reproductive system from
live animal. Saved skull.

L. 245 m.m
T. 147 m.m ♀
F. 38 m.m

528 *Dipodomys o. u.* Preserved reproductive system from
live animal. Saved skull.

L. 252 m.m
T. 150 m.m ♂
F. 40 m.m

529 *Dipodomys o. u.* Preserved reproductive system from
live animal. Saved skull.

L. 242 m.m
T. 147 m.m ♀
F. 38 m.m

530 *Dipodomys o. u.* Gave this specimen to D. D.
Jorgensen for histological purposes. no skull, measurement
or rep. sys.
