 Dinosaur Nat. Mon 00406.9 - mourning dove  
 Dinosaur 00408.

(in area 22 years)  
 Informant at Dinosaur said:  
 Prairie dogs from Elk Spring  
 to Green River and  
 from road 5 to mountain  
 across valley.  
 always in area and fluctuate  
 from year to year.  
 Black footed ferret in  
 some area as prairie  
 but away from roads.  
 See upto Baday or none  
 on hunting trips.  
 Coyotes reduced by sheep  
 men hunter. Area winter  
 range and start  
 in about a month.

mourning dove  
 410.9 p dog 1 rd kill.  
 411.4 p.d.  
 412.2 Utah State line  
 413.5 p.d. g  
 414.4 p. dog  
 415.8 p. dog. m. dove

end of prairie dog census

Green River (bridge) 00430 3:45 P.M.

Brewers blackbird 8-2-3-1-10-6-  
 Cowbird 4-18-  
 Pheasant 1  
 Magpie 1-  
 Swallow 2-4-2-3-  
 Sp. hawk 00441

I noted that  
 the greatest  
 concentration of rabbits (cottontail)  
 were associated with p. dog area  
 and exceeded p. dog road kills by  
 3 to 1. This applies to entire trip  
 from Lawrence to Pecos.

Vernal 00445. 4:00 P.M.  
 Brewers blackbird. 3-2-1-  
 m. dove 1  
 porcupine rd kill 00454  
 Swallow 200  
 magpie 1

nearly all birds  
 associated with  
 valley & not uplands.
