Franklin gulls (approx. 150) between
Left North Platte 2:10 at 01421.

Capton and Hershey.
Borrow pits along inter-

state without noticeable bird population, except occasional
sandpiper. One lake with algae growth, all others clear.

4 ducks associated with lake supporting algae. Farmers
using water for irrigation. Most lakes with sandy beaches
and only occasionally with ^{small patches of} rushes. These lakes should
be investigated for succession of new lakes.

Arrived Omaha
7:30 P.M. at mileage 01722. Just large flock of blackbirds
(1000) in city limits, our trip today.

Arrived Lawrence
12:30 A.M. Sat.¹⁶ at mileage 01934
