

Douglas County Lake, Douglas Co., Kansas

July 7, 1968

Tracing of Harris' map from Harris' Landing and Boat Dock

DOUGLAS COUNTY LAKE

normal water level 180 acres
normal shore line 6.5 miles.

← kingfisher

← green heron

Caroline Malwood and I made canoe trip as indicated above.

Green heron unusually concerned and rather than fly up or down creek left and flew to field beyond where it continued calling.

Kingfisher at entrance of creek into lake. It did not call. A turkey vulture circled in the area.
