

of the canyon. The pictographs are on the east facing walls of perpendicular cliffs. The canyon is the first major slide canyon w of Ross Snowslide Canyon, and shall be known as Pictograph Canyon for reference.

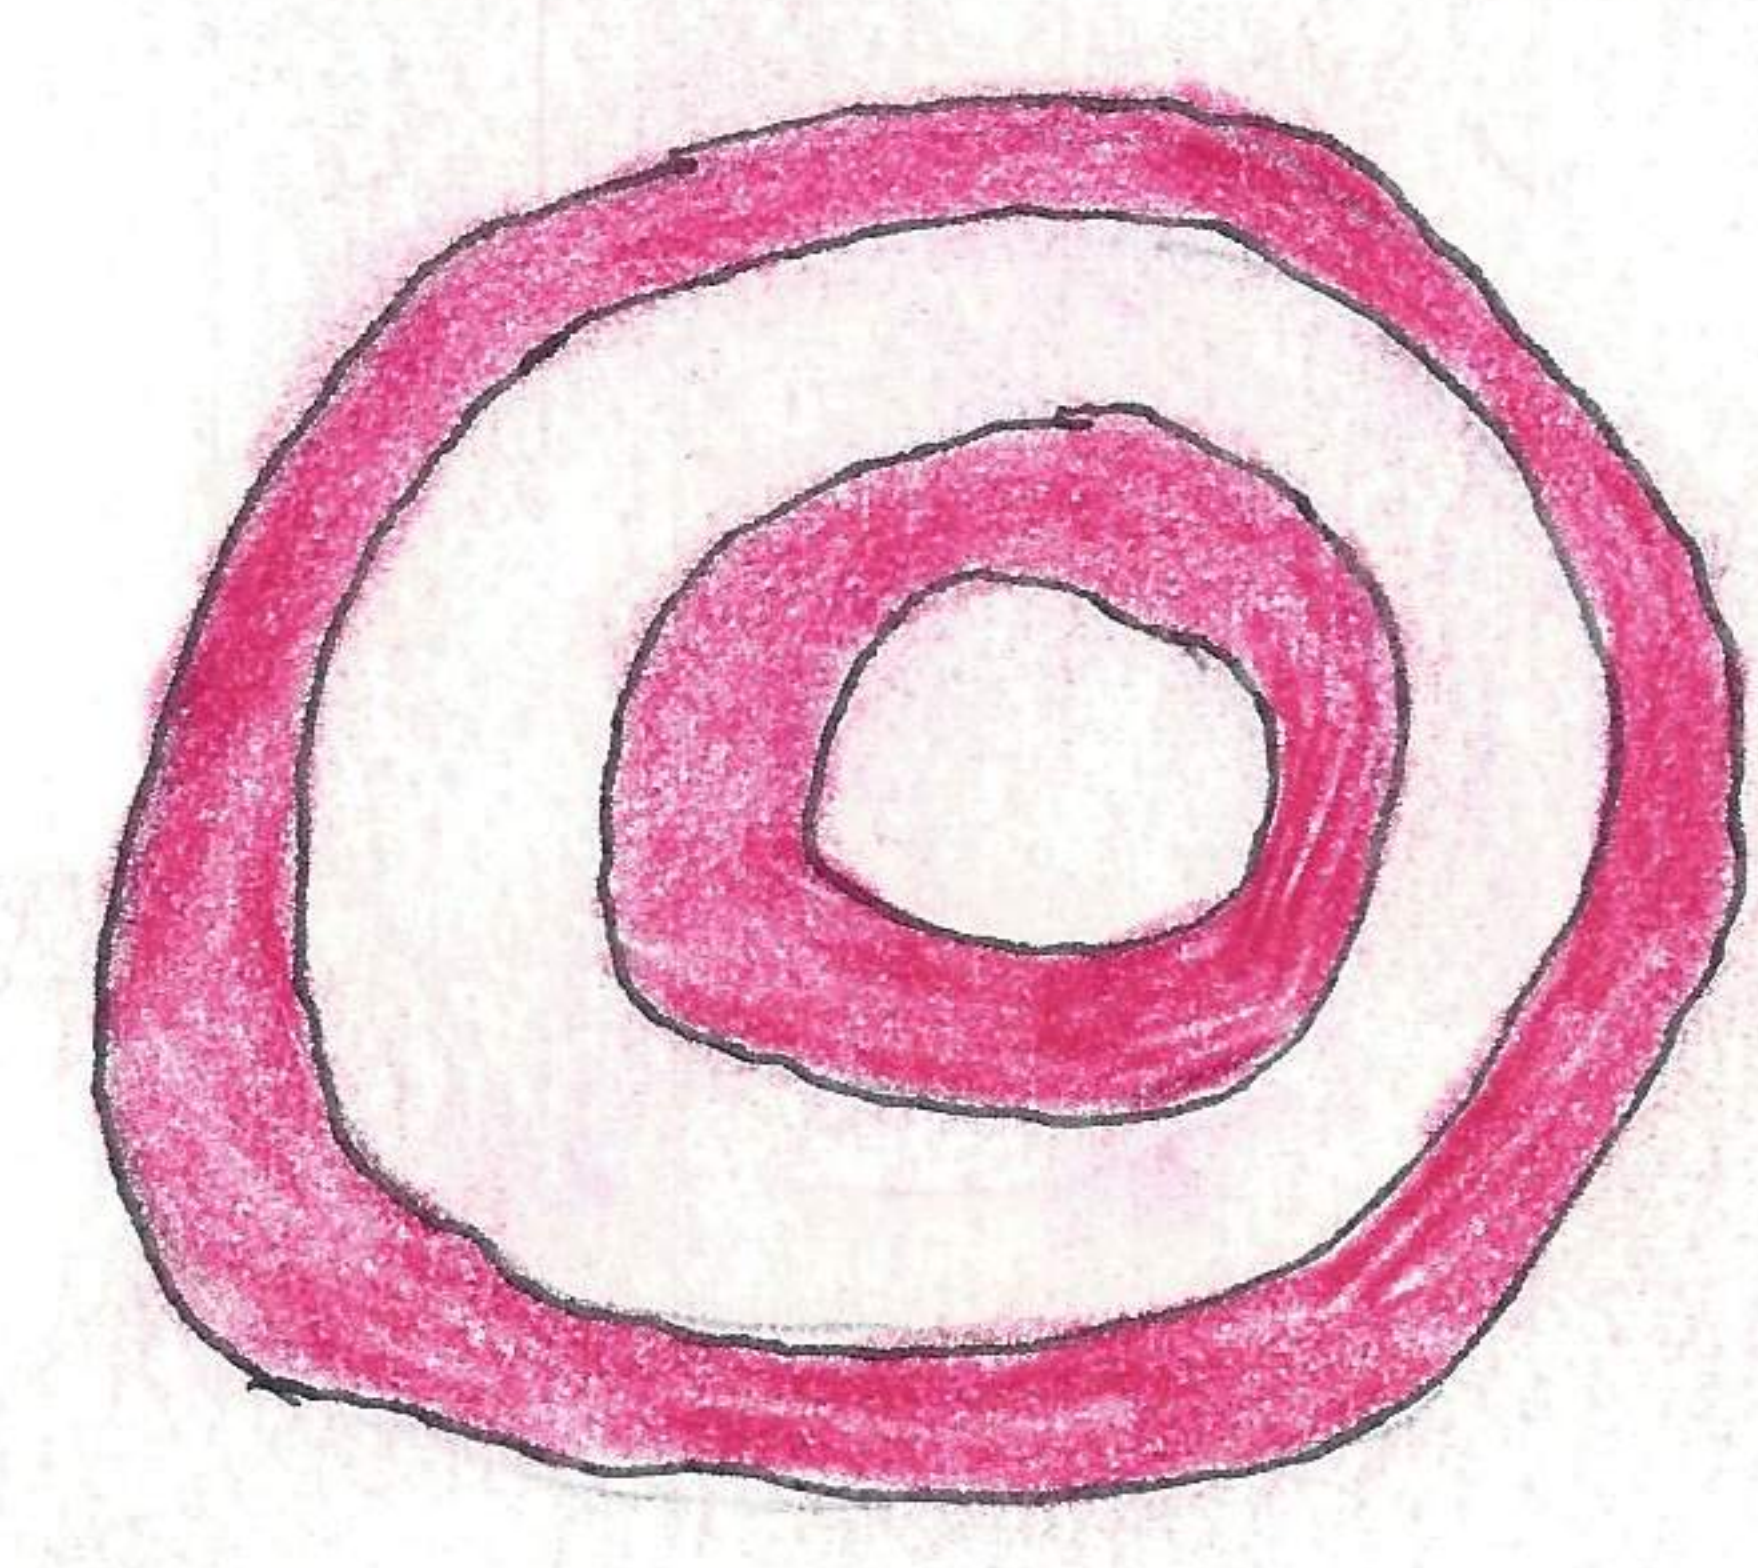

The three figures recorded from cliffs as indicated are:

ALL FIGURES TRACED FROM CLIFFS AND THEREFORE NATURAL SIZE. FIGURES SEPARATED BY SEVERAL FEET.

(see June 4, 1939 for other figures of this same area.)

figures are faint because of covering of calcium carbonate, wet surface shows fig. best.
