

LOCATION OF INDIAN ARTEFACTS

DELAWARE RIVER, JEFFERSON CO.

MARCH 15, 1969

VALLEY FLOOD PLAIN

Possible explanations for occurrence of artefacts (in order of probability):

1. Artefacts from lateral drainage system.
2. Artefacts from surface of valley floor by lateral erosion of river bank.
3. Artefacts in original position in river bed (highly improbable).

Approximate distance of major positions from mouth of lateral drainage: axe 150', scraper 775', Sandbar 1075'.
