1½ mi S (P.G. courthouse) 500 ft., Kaien Island, 700804-114

Prince Rupert, British Columbia, Canada

aug. 4, 1970

From trapline of 100 traps set last night, collected the following mammals:

700804-1	Sorex			130-56-15-9-10 gms ♂ testes 5 mm
700804-2	"			~~123~~ 124 -56-15-8-6,5 gms ♀ ut. normal.
700804-3	"			122-56-15-8-5.5 gms. ♀ ut. normal.
700804-4	"			120-54-15-8-6 gms ♂ testes 5 mm
700804-5	Clethrionomys	gapperi	caurinus	148-36-20-13-28 gms ♂ testes 11 mm
700804-6	"	"	"	142-45-19-13-24 gms ♂ testes 10 mm
700804-7	"	"	"	132-36-19-13-27 gms ♂ testes 10 mm
700804-8	"	"	"	120-33-20-12-17 gms ♂ testes 5 mm
700804-9	Peromyscus	maniculatus	macrorhinus	206-107-24-18-24 gms ♂ testes 7 mm
700804-10	"	"	"	210-112-24-17-26 gms ♀ ut. normal
700804-11	"	"	"	188-100-24-18-17 gms ♀ ut. normal
700804-12	"	"	"	180-94-23-17-17 gms. ♂ testes 5 mm
700804-13	"	"	"	181-95-23-18-17 gms ♀ ut normal

There was a tendency for mammals to aggregated along trapline. Although the hillside forest was climax and all ground covered with moss and ferns etc., the mammals were found principally along water and supersaturated soils, and in one instance three species in three consecutive traps placed 10' apart.

Temp. at 8:30 A.M. today is 58°F. Min last night 53°F.

Prepared to leave via ferry to Kelsey Bay on Vancouver Island. Left Prince Rupert at 12:50 on the 'Queen of Prince Rupert'. At the dock were 8 ravens and 12 mew gulls and 1 glaucous winged gull. Will keep list of all bald eagles, and ravens, and ravens and then general and special observations along the way. These observations will be correlated with time. Photo 700804-14 of Prince Rupert from boat on way out. 12:52 2 ravens. Photo 700804-15 of Islands to W (not Queen Charlotte). 1:18 hummingbird, 2 bald eagles. 1:45 3 bald eagles These eagles ~~were~~ were on NW end of an island at mouth of Cheena. 2:40 2 bald eagles. 2:48 2 bald eagles. Observed 3 mew gulls in 5 minutes of observation, otherwise uncommon. Checked number of gulls in ½ hours from 3:00 as 1-1-2-1-1-1. 3:30 2 ravens, 1 bald eagle. From 3:30 to 4:00 observed gulls as 1-6-1-5-2. 4:04 bald eagle 4:06 bald eagle, 4:07 Lowes Channels. 4:15 bald eagle, 4:18 bald eagle, 4:16 bald eagle, 4:17 bald eagle. 4:27 raven, bald eagle
