 N-S Leecompton Rd. redtail in top lone tree. 00.7 7 starling.
 bluejay. 00.8 crow. 01.9 meadowlark. 03.0 Leecompton
 Bridge over Kew, water level same as last week. 04.1 3
 meadowlarks 04.5 redtail on pole. Redtails are
 territorial on winter ground. 05.9 Delaware River. Yellow
 shafted flicker in middle of road in center of bridge and
 an English sparrow chased it. 06.4 redtail on dead tree
 edge of orbaw. 06.6 redtail top telephone pole. 07.0 meadow-
 lark. 07.9 highway 24. 09.2 Thompsonville Rd. 09.9 Crow,
 flicker, 4 meadowlarks. now N at 10.0. 10.1 entering
 Thompsonville Park. 10.8 W end dam now N. 11.3 Cheebodee,
 Only 2 gulls (ringbills) in lake N of dam, no ducks 11.6
 main rd. 12.3 marshhawk. 12.4 3 ringbills, 12.5 E end
 peninsula. 12 ringbills on water in middle lake to E. 10
 ringbills on water N E peninsula (50' off shore). 13.0 back to
 main rd. 3 tree sparrows. 14.2 bay area & return. Approx.
 120 lesser scaup & 8 mallards flew up lake. 14.9 40 tree
 sparrows. 16.4 30 tree sparrows. 16.7 W end dam. Outlet
 89.8 ft no ducks 18.3 Adm. Building. Some wove on beach
 and some whitecaps 19.7 Highway ⁹² now N 20.3 Ferguson
 Rd. 10:30 21.4 Big Slough Bridge. 25.4 crow, sparrow hawk,
 redtail. Cloud mass from E & S now over area and no sun or
 blue sky, wind increasing and changing to NE. 27.3 Little
 Slough Creek Bridge. 28.1 Entrenched Four Corners & continuing
 N. 29.5 8 tree sparrows. Cottontail road kill. Approx.
 5000 in bay S Paradise Point. 31.7 Entering Park & cont. W,
 6 ringbills flying N across peninsula. 33.7 W end peninsula
 and wind now NE and creating good whitecaps. From
 shelter on N side peninsula observed approx 40 ringbills
 fishing in E end bay and one pelican on floating wood
 and preening feathers. Temp 49°F from 60°F this morning
 and wind now strong and completely overcast. Left shelter
 at 35.2 at 11:38. Sky solid without cloud relief that is sky clouds
 homogeneous. 36.2 now S to lun around 36.6 turn around. Ducks in
 bay consist of 2 canvas backs, 4 redheads, mallards, 5 bufflehead,
 2 shovellers, pintail, bluewing, gadwall. 3 red-breasted mergansers
 flew N along shoreline. While watching mallards, 7 group of approx.
 150 left raft at about 5 minute intervals and flew E out of sight in
 a straight flight but an irregular searching flight. It is interesting
 to speculate what causes these birds to leave in certain group numbers
