

Arvon, Eagle Co., Colorado.
 elev. 11,800 ft.

Aug. 10, 1975

From 50 traps along roadway thru aspen, fir etc:

<u>750810-1</u>	Sorex	123-49-14-7-9 gms. testes 5 mm
<u>750810-2</u>	Zapus princeps	215-132-32-13-17 gms. ♀ ut normal
<u>750810-3</u>	Microtus	155-56-20-12-23 gms ♂ testes 9 mm
<u>750810-4</u>	Peromyscus maniculatus	163-71-20-18-22 gms ♀ 3x3 plac. scars
<u>750810-5</u>	"	165-72-21-18-23 gms ♂ testes 10 mm
<u>750810-6</u>	"	166-72-21-18-22 gms ♂ testes 10 mm
<u>750810-7</u>	"	168-80-21-18-20 gms ♂ testes 9 mm
SK 750810-8	Eutamias minimus	196-88-31-16-37 gms. ♂ testes 4 mm

These traps were set on N exposure along an old road that traversed the hillside. This road leads an underpass of the main highway in bottom of canyon.

The area above & below in good deciduous-coniferous forests, a ~~the~~ canal below road, while the trap sites were on dry erosional slope of road, mainly under overhang created by road building. The Zapus and Microtus were taken above the ledge of overhang. This camp was at mileage 5599.

Left area at 12:50 P.M. at Vail made photograph 750810-9 of creek that flows thru village. Rented Ford in Vail for the weekend. Continued to Tenderfoot Camp east of Keystone at mileage 5648. Set 100 traps ^{9 1/2} miles E of here at a point just below Loveland Pass, all above timberline and on the W side of the valley W of the road. Traps set in some trails in short grass, mosses or lichens among boulders, along edge of drainages, now dry, around edge of lake among ledges, among short willows bordering damp areas and among ^{new} Krumholz. Returned to Tenderfoot Camp just east (bordering) of ^{new} Keystone Complex.

5/10 mi. S, 2/10 mi. W Loveland Pass, 11800 ft., Summit Co., Colorado.

Aug. 11, 1975

Min. temp at Keystone 37°F. Left for trapline 7:30 A.M. at mileage 5667.1 From the trapline at Loveland Pass (above) collected:

<u>750811-1</u>	Peromyscus intermedius	[135]-[18]-18-12-49 gms ♀ 3x4 emb 28 mm 18 gms (all)
<u>750811-2</u>	Zapus princeps	236-142-32-15-28 gms ♀ ut normal, lactating.
