

8 Bonaparte Gulls in area. Female red-breasted merganser flew into bay on north side of peninsula and turned around and flew out again. Left 10:21 A.M. Wind from S<sup>(breeze)</sup>, more overcast & less sun than <sup>long</sup> this A.M. 98.0 took main road. 89.1 Three does in field to left. They remained motionless <sup>at a deliberate speed</sup> for about 20 seconds, then walked 30', then pounced away into deciduous forest. Bluejay flew over same field. 99.4 2 light colored redtails sitting 6 feet apart <sup>top of</sup> in dead tree. Ducks (mallards) extend all the way to 200' beyond point on nw side of this bay. 99.4 2 bluejays, 3 juncos. 99.6 road at head of bay, fox squirrel, bluejays. 99.8 killdeer. 00.1 gates. 00.4 bare hill and leaving lake. 01.4 highway 237 now N. 02.5 now left, all leaves either off trees or dead on trees, no greens except some vines. 03.1 bluejay. 03.3 boat ramp, only 3 mallards in entire Rock Creek area N of causeway. No gulls. 04.6 Rock Creek Bridge. Ducks stop about 200 feet S of SE point beyond causeway. 2 gulls in marina area to left. 07.2 2 crows. 08.4 marina turnoff but continuing N, meadowlark. 08.9 meadowlark, starling. 11.0 Ozaukee Road 12.0 flicker 12.4 on old road to right. 13.4 point where old road submerges into lake. 2 Killdeer. No ducks in area. Usual tree sparrows in weeds not here at present, only 8 slate-colored juncos. 14.2 causeway bridge (Ozaukee) no ducks immediately N of causeway or to S. Hunting is not permitted N of the causeway. 2 gulls flying over causeway. 15.0 turn off to Old Town Park. 15.6 SW corner of Old Town Park. Old dock (mud) vacant and no ducks in area. 17.2 entrenched 4 corners now N, 17.6 2 crows, 2 starling. 18.1 reddish <sup>11:18 A.M.</sup> 4 goldfinch, 19.3 now W. 19.5 shrike. At Sandy point just E of gates to Paradise Point noted an eagle circling overhead 450' (adult bald eagle) and at that time discontinued sailing (circling) and flew <sup>11:24 A.M.</sup> WSW to lake and then S to hill promontory where it started to circle as it moved S along ridge. At 11:27 it joined temporarily with a juvenile bald eagle but left it in 3 circles and flew straight to SE corner of Ozaukee area near Causeway (11:32) <sup>thence</sup> Bay circled 3 times then sailed and flew E up Little Slough Creek <sup>valley</sup>. Between ridge it sailed straight or flapped wings still in straight course but when over ridges along lake circled. A third bald eagle (immature?) high in air to S over new village S of Ozaukee Causeway. Mallard ducks from east bay to distant point of Paradise Point (see map). I would estimate there are 11,000 mallards, counted 233 Canada geese. The other kinds of ducks will check on way out. 20.9 20.9 at 11:35 Gates to Paradise Point. 21.8 sparrow hawk. 21.6 2 bluejays, 5 crows. 22.2 now right to boat ramp, sparrow hawk. Boat ramp. 22.4 Bay in ice from point (NW) up bay, open and along shore on W end peninsula (Paradise)
