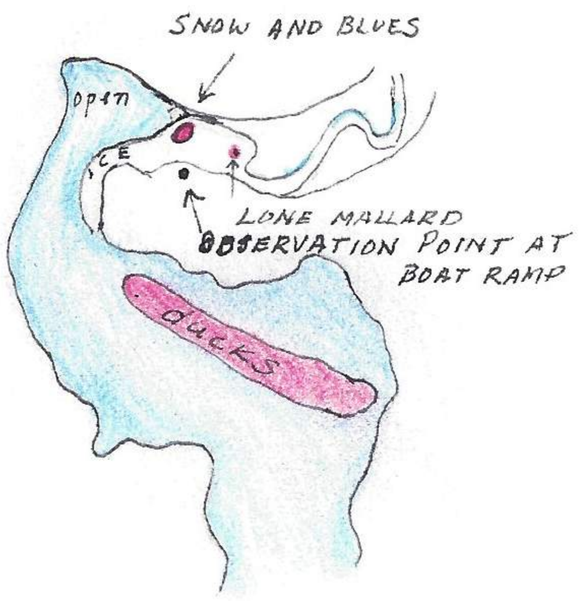
From observation point at boat ramp observed approx 10,000 snow and blue geese resting on ice some 20 feet from open water. most of them 70% were on bellies, the rest 30% were standing on one leg with head tucked between wings of back. 58 were standing erect with head upright. A call was given about every 2 to 6 seconds. Nearly all birds faced S, A small group of 500 mallards and snow geese resting on mud bar to the NE (40' away from geese), other mallards (approx 200) resting among the geese. At this time Can see only 2 gulls in air and 6 resting on ice about 50' from geese. 8 gadwalls swimming in open water n/o geese, 18 green wing teal near mallards. Three killdeer arrived at boat-ramp to inspect me and then left. Flock of approx. 80 mallard alighted among geese.



B = adult blue
b = juvenile blue
S = adult snow
s = juvenile snow
