11. Bait gone - sprung. Base of perpendicular cliffs where larger animal forms were crossing as evidenced by the tracks.

12. Bait gone. Ibid.

13. " " " " "

It would appear as if the *Peromyscus* had visited all traps except one. The sky was without a cloud with slight up canyon breeze. Cool on shirt sleeves. Two chipmunks near river, one stopped on rocks until within 20' then ran 20' and stayed until I passed by. Swifts in air. Did not see any lizards this morning over same route and same time as covered yesterday.

14. museum Specials return in swamp habitats. First field south of Chestnut home, second field west of Gifford's home.

- 1. not visited. Edge of swamp under brush growth.
