

La Connors Preserve, Thousand Trails, Skagit Co., Washington
Sept 9, 1984

From Lone tree point (sw) observed cliff pattern on w side sound as:

purple finch. 2 (♀) have been in center of bay to w & n for last 2 days.
black scoter 2
surf scoter 64
white-winged scoter 42 } Sept. 10, 1984

Sept 11, 1984 new arrivals in last 3 days,

This A.M. observed 26 mew gulls at S point of Lone Tree Island as well as 5 Caspian tern (4 adult, 1 immature). Nearly all mew gulls showed white in primaries when the gulls were resting. One ~~was~~ ^{bird had} primaries black when resting but showed white when stretched. Legs more greenish yellow than ring-billed gulls, but some have yellow legs like ring-billed
