

10:50 A.M. no sun yet. 2 *Thamnophis* snakes.

Left for Lopez Island. Between Friday Harbor and Orcas observed:

- 24 pigeon guillemots
- 3 great blue heron
- 68 Bonaparte gulls (one group of 42 birds generally distributed in one bay)
- 8 double-crested cormorants
- 2 belted kingfishers
- 6 arctic terns
- 32 gulls sp.?
- 12 horned grebes
- 4 common loons
- 6 NW crows.

Arrived Lopez Island. Half way down island in open fields one flock of 126 common crows.

Informant at SW Swift Bay says winter northeasterly comes down bay and floods above tidal zone. Last year fish were blown onto road.

Checked Fishermans Bay, Jones Bay, Agate Beach, Hughes Bay, Alec Bay, McAdle Bay, Hammett Lake and Spencer Spit.

At Fishermans Bay 180 scoters in one group all immatures and females except 4 males (surf scoters).

One mule deer at Spencer Spit State Park.

Spencer Spit State Park, Lopez Island, San Juan Co., Washington
