cormorant flew S., 4 pigeon guillemot flew S. 5:42 7 pigeon
guillemots flew S. 5:43 Funtleroy Pt. 3 glaucous-winged
gulls on water. 5:46 W Thatcher Pass. 5:49 glaucous-
wing gull flew S. 5:50 5 pelagic cormorants, 3 glaucous-
winged gulls in feeding group. 5:54 6 mew gulls on log in
water, 1 pigeon guillemot on water, 2 glaucous-winged gulls
on water, 1 glaucous-winged gulls flew S. 5:57 4 pigeon-
guillemots on water, 23 mew gulls on water, 1 pigeon guillemot
on water. 5:59 1 double-crested cormorant on water, 1 pelagic
cormorant flew S. 3 pelagic cormorants flew S. Arrive Lopez
Island.

March 27, 1989

To Anacortes and return to Lopez Island. Left 9:54 A.M.
9:59 Leo Reef. 9 north side, none on S side, 2 frolicing on
E side. Ad bald eagle of beacon (Leo Reef) but did not disturb
the 9 harbor seal, some only 15-20 away. 28 glaucous-wing-
ed gulls on Flower Island and generally distributed. As I recall,
this number is about 1/20 the number of glaucous-winged 2
years ago. This island is being harassed by people anchoring
at Spencer Spit and exploring the island in dingys. 10:08
W end Thatcher Pass at red light beacon. 10:09 2 pigeon
guillemots left water. 12 glaucous-winged gulls followed
ferry as passenger offered them food. Up to now they have
increased to 16. Pomter Island covered with glaucous-wing-
