

S March 5, 1992

River otter past Bee House at 4:31 P.M. It was approx 80' from shoreline

4:32 P.M. Adult bald eagle flew S past Bee House at 3' above water and hugging the shoreline all the way which is unusual for the eagle.

6:18 P.M. lights fading and adult bald eagle flew N past Bee House.

March 8, 1992

9:30 A.M. 21 violet-green swallows at Hummel Lake on telephone wires N end where they usually congregation in early spring and late summer. First observed this season.

March 11, 1992

To Deer Harbor on Orcas Island, <sup>from Lopez Island.</sup> with Dennis and Judy Daley from Lawrence, Kansas and Annette in the Bee Boat. Birds observed enroute: common murre, pigeon guillemot, marbled murrelet, rhinoceros auklet, pelagic and doubled-crested cormorant, common goldeneye, surf scoter, hufflehead and others. Returned to Lopez Island and trilled for salmon but no success.

March 12, 1992

Annette, I, Dennis & Judy Daley to San Juan Island. Left Lopez Island 10:10 A.M. Enroute on ferry observed 21 glaucous-winged gulls, 6 mew gulls, 3 common murre, 11 rhinoceros auklets, 32 pelagic cormorants, 18 surf scoters, 21 common goldeneye ducks, 3 huffleheads and one common loon. Checked <sup>At English Camp</sup> Locke Harbor, then return to Friday Harbor where Annette & Judy shopped & Dennis & I to False Bay and American Camp. Ranger informed me that St. Juan de Fuca, skylarks in area as diagrammed:

Domestic rabbits acting like prairie dog and remained near holes in open field for immediate escape below ground. Northern flicker in area and at least 40 American robins. Return Lopez Island.
