Mileage from Deer Harbor Boat Works to Shoal Bay marina, 7.1 nautical miles in 82 minutes or 5.19 MPH (nautical) at 11 RPM.

Aug. 12, 1992

Walked to Lopez Island ferry terminal from Bee House: Left 8:42 A.M., 9:09 A.M. Port Stanley Rd., 9:29 A.M. Center Road, 9:43 A.M. Divide, 9:47 A.M. D.J. Hall entrance, 10:03 A.M. Lopez Island ferry terminal, or 1 hr and 21 min. walk at 2.3 miles distance. or 1.73 miles per hour.

Enroute counted 45 domestic rabbits, mainly small ones. Paul Quinney who lives along Humphrey Lagoon says there was a high population of rabbits about 1984 or 1985. In early days when rabbits were used for food, people traded beer for rabbits, also two days ago he observed 3 osprey and 1 bald eagle in S end Shoal Bay

at Bee House observed following mule deer at A.M. feeding time:

Also at feeder  
2 ♀ adults  
2 fawns.

This ♂ has remnants of light, long pelage under neck

All pelage slightly faded from rich golden-brown to a lighter brown in last week time

29" high at shoulder curious of and accepted 1 of the fawn and groomed by me (mother) of adult females.

This deer also at Jensen Lagoon yesterday evening

Aug 15, 1992

medium sized raccoon on porch at 2:30 A.M. Play<sup>ed</sup> with flower pot that held a amarillia bulb and soil. Did not eat bulb, but handles it on its back and side like an immature mammal.

Sunrise over Blakely Island 6:27 A.M.
