

Feb. 2, 1993

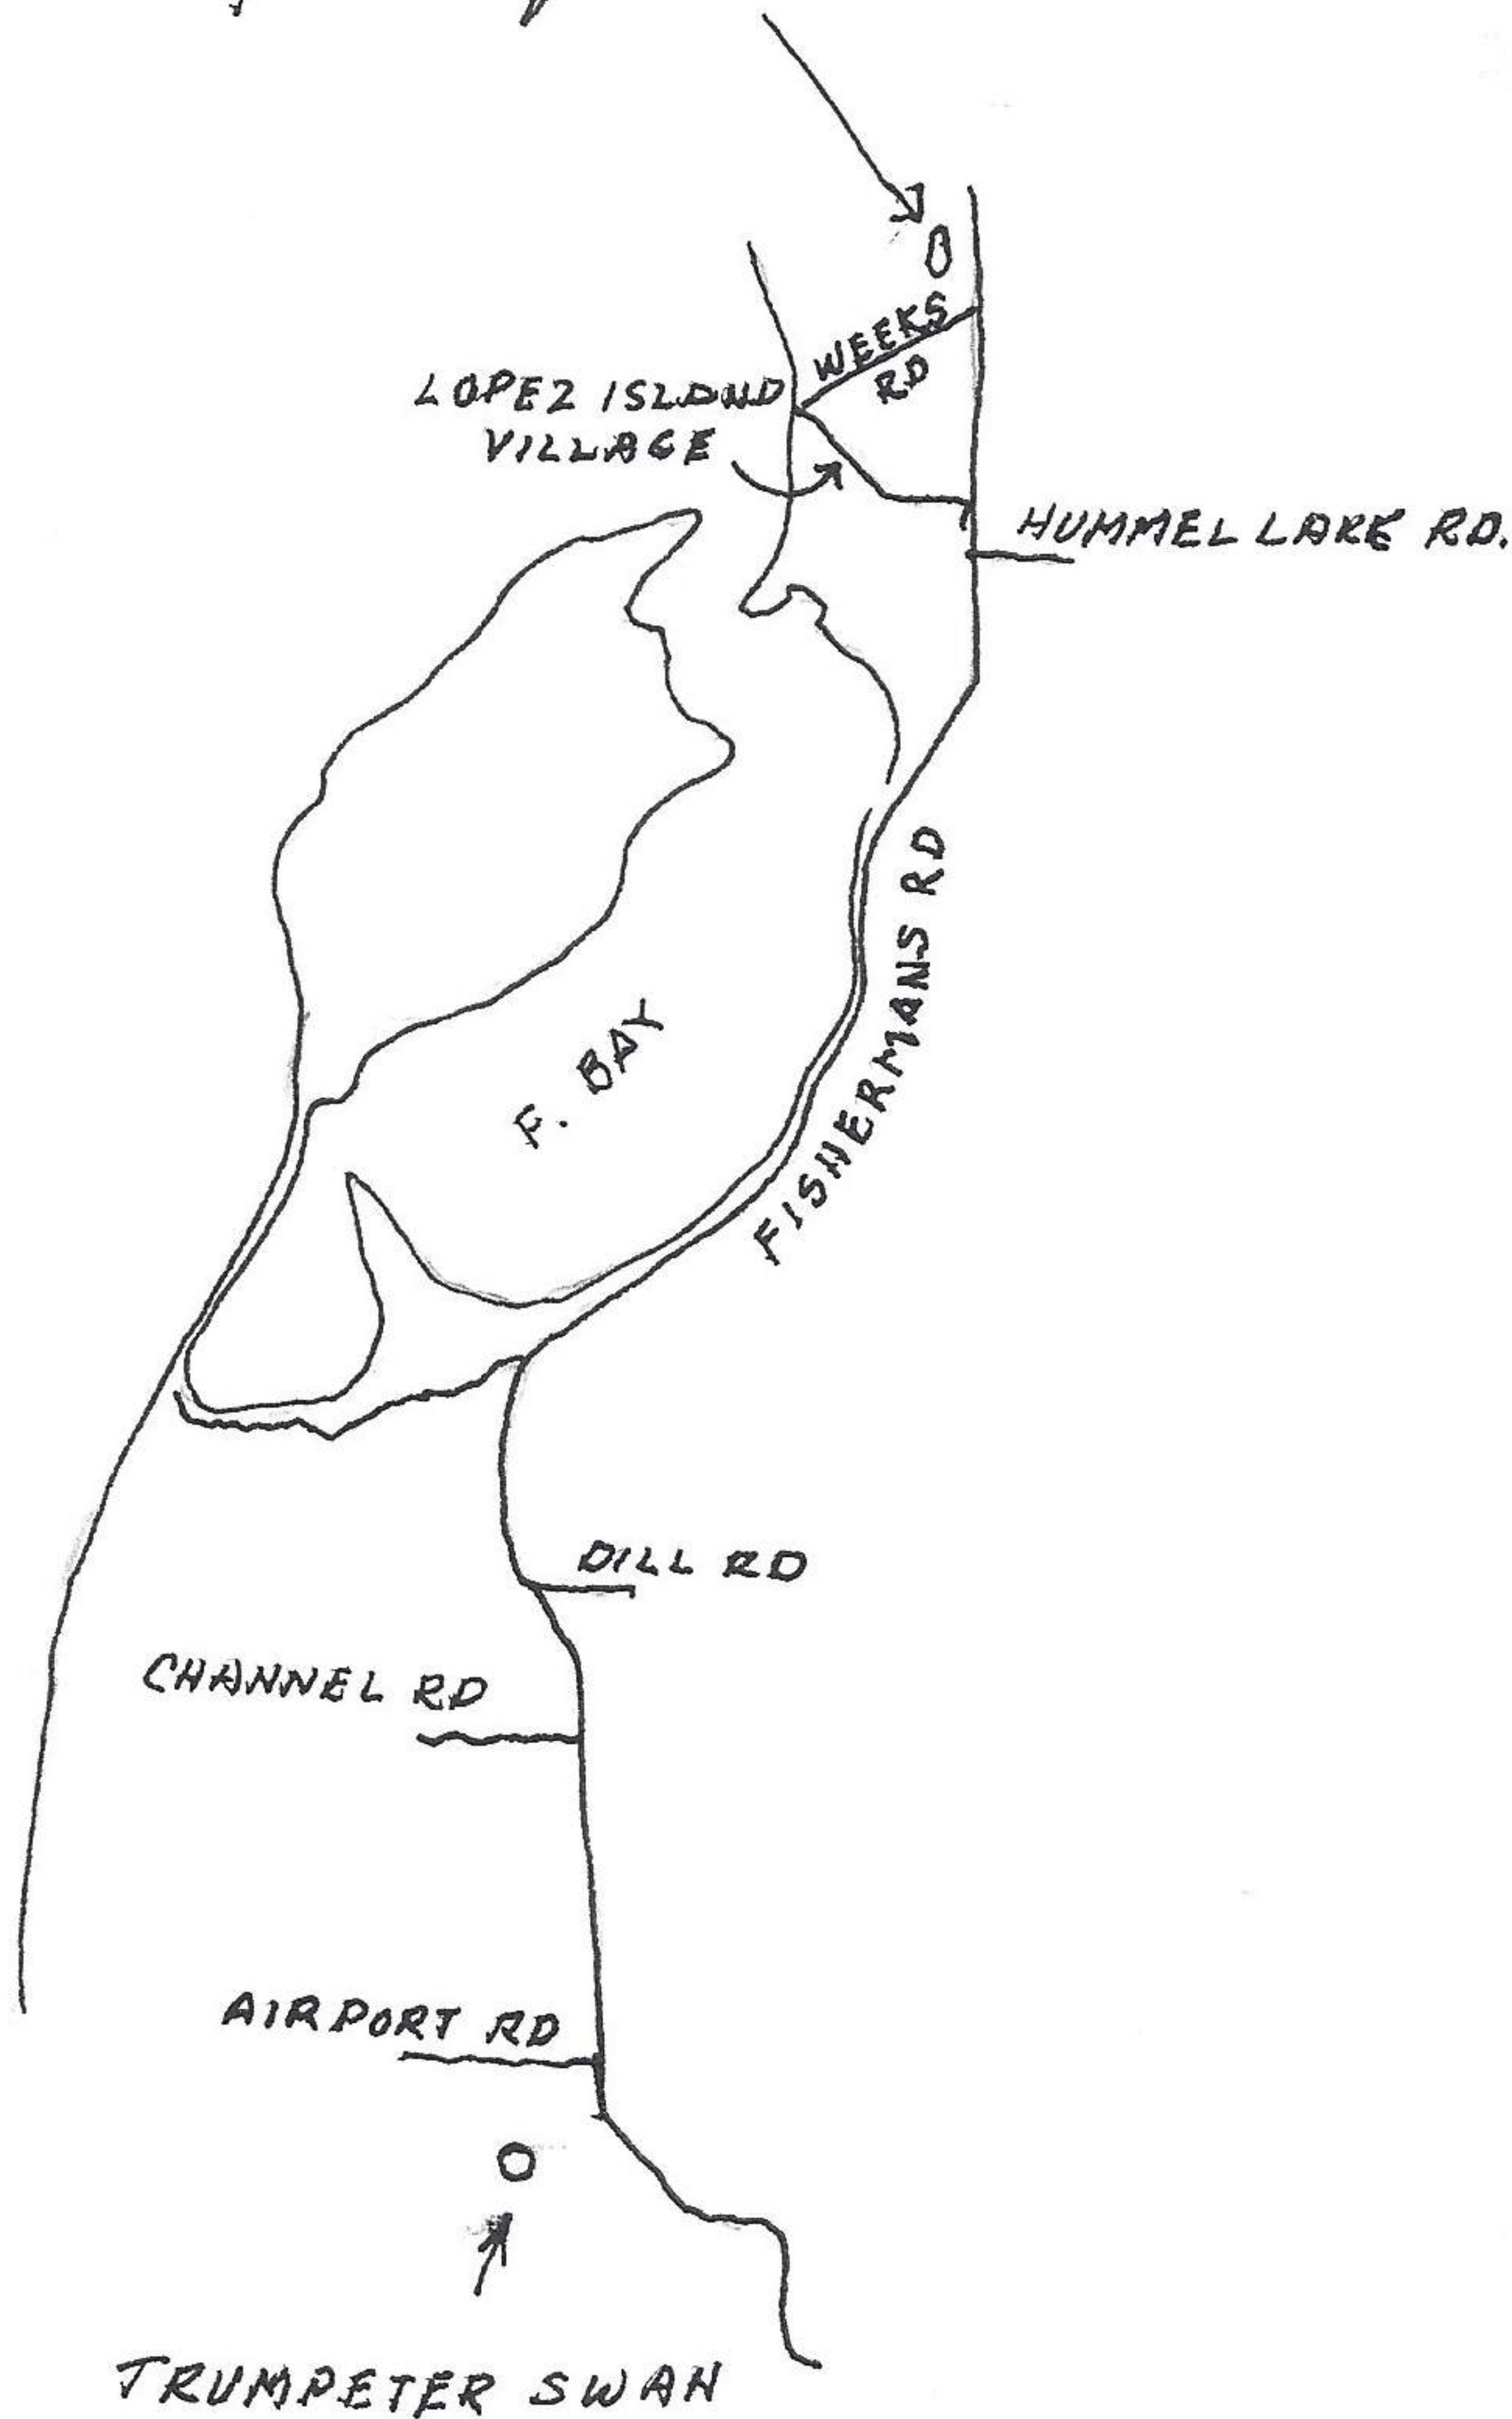

Don and Mary arrived from Utah. They report that there is more snow at Sundance, Utah than they can recall. Their cabin is completely covered. Snowslide are occurring in north fork of the Provo River and traffic is almost stopped. He noted a moose along river at Wildwood and <sup>also</sup> among cabins there.

Sunrise this A.M. at 7:50:00 A.M.

Feb 2, 1993

Richard and Barbara Pickering reported a trumpeters swan on their pond. Feb. 1, 1993.

Observed a trumpeter swan <sup>2/10</sup> mi. SW junction airport and Fisherman Bay roads. It was resting in marshland with head under wing.

The ♂ mule deer with asymmetrical antlers has shed its normal antler but retained its 1 1/2" antler.
