

Cafeteria Scene

SAN ANTONIO, Tex. (AP) — Employees of a bus terminal watched in horror Monday night as a Miami man fatally slashed his throat and stabbed himself repeatedly in the chest. Fred Thomas, 31, was dead on arrival at a hospital after the incident in the cafeteria of the Greyhound bus terminal. Officials said Thomas was en route east from California.

John Scott, an off-duty policeman working as a security guard, struggled with the victim twice trying to get the knife from him.

"He was split from one end to the other, screaming and gasping for breath," Scott said. "I tried to get a pressure bandage on his throat but he must have been doped up or something. I've never come across anyone so strong."

Olga Pimentel, 27, cafeteria supervisor, said he heard Thomas screaming. "I ran to see who it was and saw him slashing his throat," she said. "He did it about three times. After he did it he just stood there screaming. It sounded horrible."

NIXOLA of Wall Street

By FELIX GRENDON.

Not a line of slush. Not a line of dullness. This is a romance of business with all of the flavor and none of the fever of a Wall Street atmosphere. The dialogue sparkles, and the story moves with grateful swiftness. It is good to know Nixola, Aristide Cambeau and all the rest. Price \$1.50

THE BOYS OF HUNDLEY WARP

They were black, then. As the seals of the Pacific. As the hard baked black enamel of a Detroit automobile. As the soot at the bottom of a pipe. They were as black as they come then.

The king's name was Lionel, the name of a rude but proud black man. Proud as a bull elephant, or a beautiful black woman is.

Why do these dudes do what they do? Launching crude darts at the feet of white and black children. Nailing the hammy fists of white women to garage doors?

The Hundley Warp Gun Club is active in social causes.

An acid bath is suddenly conjured by these jokers out of a carwash, acids soaking the cars of whites and blacks too. Who let them loose? Where is God? Who is he?

A bottle is a mouth-cork to this bunch, a razor blade a mouth wash.

DEAR MOON,

Why does Oneba pick his nose like that? In public? In private? Is it a nervous tic? The pressure of the job? Or what?

Answer: Oneba is the one. The nose, the finger, what is the difference.

People float, people blow air at doll's faces as shown below, people do just about anything you can think of. Take Peter Webelo, for example. Pete is a retired man, his career in suitcase manufacture having ended suddenly with an abcess of the heart muscle. His doc said, "Go south, Pete. Take it easy." And that's what our friend has been doing for the past five years, floating in the surf at, or rather out of, Gulfport, Mississippi on the balmy Gulf coast. His wife Mort says, "He floats out and in with the tide. Sometime's I'll look out the window and see him there on the beach and I'll think it's a

log, but it'll turn out to be just Pete rolling in with the morning tide." It seems that Pete has rigged himself a tether line more than 15 miles long, which allows him to float out considerable distances and explore the luminous fauna of the gulfstream. If he wants to come in quickly he need only push a button on his floatation gear and he is reeled in automatically by his wife. And the gal on the left is Carla--she blows air on doll's faces.

TSZE SZE'S FIRST THESIS

I. What Oneba the One has disposed and sealed is called the inborn nature. The realization of this nature is called the process. The clarification [the bringing to light or making intelligible] of this process is called the moon.
II. You do not depart from the process, even for an instant; what you depart from is not the process.

Dear Moon,

First you were the Process News. I follow you guys pretty close you know. Then you had a dismal bastard brother, the River City Moon. Neither were a decent buttwipe. Prostitution pigs, artificial waste, you guys have made an art out of catching the obvious in a see-th-rough saran wrap butterfly net and killing it.

Most of your stuff isn't that funny. Private jokes and privzte jokes--the two categories of your humor.

Eat your heart off at Big Lemo's. Big deal.

HUNDLEY WARP PTA DRAWS BLOOD

Mysterious Incident

PRESIDENT DR. MARGO FLETT, PRESIDENT FLETT, HEAD FOR LIFE, showed surprized and impressed members of Hundley Warp District nails driven into the hams of the hands. She has no evidence that this is the stigmata. In discussion later, after the group divided off, a resolution passed demanding pubic transportation for all school children to and for.

When cells of the top layer of the skin — the epidermis — form too soon and never mature, psoriasis has begun. A normal skin cell matures in 28 to 30 days as it passes from the bottom to the top of the epidermis. Psoriatic cells form in six to eight days and proliferate chaotically. The diseased cells can form a thick brittle layer that can crack open when the victim moves a joint. If extensive psoriasis goes untreated, large patches of scale can
