John Emick wants a bill BIRD-DOGGED, he wants the day-care centers Watched to see that money does not go to support Tennis Players or Alcoholics in Bars, like Jake Rose talked about. Barkley Clark is wise when he says that a 19 year old boy was doing a 'heckuva' job being mayor of a town in Indiana. But Nancy Hambleton got very stiff, and said, "Let's make 'em be 21!" As it stands, by new state law, all you've got to be is a member of the electorate to run for city commission now. Nancy is afraid, no that's not right, she is ANGRY at the thought of an outside agitator from outisde the area coming in. This big Kaplan guy stepped up to the City Commisioner Microphone and said the problem wasn't that a green kid would be elected, nope, the problem was apathy in the at-large populace over elections. Stop and figure. Ain't no 18 year old going to get elected in Lawrence, because the 6000 people that turn out at all the elections are the Kwanias Club or Moose guys. What's to worry over this 18 to 25 age slump apathy crowd? They're all as good as dead politically. So why were these people going crazy over this, dividing over this issue, Barkley getting hacked and Nancy getting frozen all over until we really just want to say RELAX, RELAX, it will be allright, Ms. Hambleton! We love the merry goings-on of our City Council! This is the best group we've had in here in years. Take what Jake Rose said. We have brought cameras into this offices and made our hearings public: Mr. Kaplan, we must demand a certain relevancy, and your remark seems irrelevant. Mr. Kaplan had a moment ago explained his position. Jake Rose from his seat and explained more forcefully the need for relevancy in Mr. Kaplan's comments. Mr. Kaplan stuttered like a bad outboard motor in his reply but sounded perhaps a touch like a savior for a moment, when he explained tiresomely that students too could be poor, and needy of day care too, and pence messed with pipe he got for Christmas once, and still John Emick looked like the good ex-California governor, Ronald Regan. The afternoon wound on, Prior, the Journal World reporter dozing like a sleepy foreigner in my imagination, the brothers Buford and George exchanging remarks as the brown sun filtered in through the Venetian blinds. pence said that he had a lot of friends who were also students. Kaplan had a good many exciting points about walking up the street and bumping your legs, cracking bones because the sidewalks, which should be public domain, are maintained by property owners anarchistically, so that a patchwork prevailed rather than a smooth and running concrete walk from one end of a level block to the other. Kaplan's mind worked this way. Of course the sidewalks should belong to the City, since everybody uses them, and anybody (and nowadays this includes some real doozies) can. And why the heck can't people pick not to have sidewalks? Ruination of the earth when the spring rains turn the grass to mud, and people have to slosh around a little? Isn't sloshing in mud really good? That was what was most grinding about the discussion of sidewalk maintenance -- other than the fact that some people in a target area will soon be asked to fixed their sidewalks or have them fixed by the city and be charged -- that poor Kaplan met so much hostility. Barkley tried to play the diplomat on this one, and nearly winked when he told Kaplan to take his argument to the statehouse in Topeka. Finally pence said, 'I'm capable of being on the city commission, but I'm not capable of being president of the United States."

SIMILARITIES RETWEEN PTEROILDACTYL REMAINS RECENTLY FOUND IN TEXAS AND THE FAMILIAR BELLED BUZZARD REPORTED ROAMING IN OKLAHOMA HAVE PROMPTED SPECULATION AMONG THE SCIENTIFIC COMMUNITY OF GEOLOGISTS, ANTHROPOIDOLOGISTS, BIOGENETICISTS AND CRYPTOEVOLUTIONISTS HERE IN THE MIDWEST THAT THE OLD-WORLD PICTURE OF ATLAS CARRYING A GIANT TORTOISE UPON WHICH AN EGYPTIAN SCARAB ROLLS ENDLESS BALLS OF DUNG FROM PYRAMID TO MOUNTAIN LANDINGSTRIPS OF THE NEZ PERCE INDIANS IN PERU, TO SAY THE LEAST, MUST NOW BE CONSIDERED IN NEED OF UPDATING. INDEED, THERE IS PROOF THAT THE TECTONIC PLATES WHICH SUPPORT OUR CONTINENTS ARE IN ACTUALITY PROTOPTEROILDACTYLS GLIDING THERMAL DRAFTS RISING FROM HOTTER REGIONS BELOW, ABOVE THE TORTOISESHELL, EACH SUSPENDING FROM THE NECK A MILLSTONED BELL WHOSE TOLLING CREATES THUNDER AND EARTHQUAKES. FORMATION-WISE FLYING, THE PROTODYLS MOVE SO SLOWLY THAT THE LEMMINGS MARCHING EACH CENTURY TO THE CLIFFS ARE NOW UNDERSTOOD TO BE RED SLOOD CELLS RETURNING TO THE GREAT FLUID LUNG OF NATURE CUSHIONING THE MIGHTY DOWNDRAFTS OF EACH PROTODYL WING. THE MOST RECENT SEXUAL CONGRESS OF A PAIR OF PROTODYLS IS STILL PRESERVED IN OLD SATELLITE RECORDS INDICATING A COPULATORY PHASE BETWEEN THE MASCULINE SOUTH AMERICAN PROTODYL ORGAN AND THE RECEPTIVE WEST AFRICAN BIRD'S. SCIENCE FEARS THAT THE REMAINS RECENTLY FOUND IN TEXAS ARE THOSE OF EMBRYONIC PROTODYLS BLASTED FROM THEIR OVAL WOMBEGGS BY THE HEAT FROM UNDERGROUND NUCLEAR EXPERIMENTS: THEIR DEATHS CAUSED BY OSTEOSOFTNENGE, THE SOFTENING OF BONE CAUSED BY DOT. THE EMBRYO RECENTLY FOUND WITH A 70-FOOT WINGSPREAD MUST NOT BE CONFUSED WITH THE PROTOPTEROILDACTYLS UPON WHOSE BACKS WE LIVE, UNDER WHOSE ERUPTING PIMPLES WE COWER AS IF UNDER VOLCANIC SEIGE, WITH THEIR 2,000-MILE WINGSPANS, AND THEIR BLOODSTREAMS OF SULFUROUS OIL WHICH WE ARE SUCKING UP LIKE SO MANY MOSQUITOS, AND WASTING SO RIOTOUSLY IN FACE-DARKENING CREAMS.
