The recent human hair thefts continue in this City. Little girls, grown women, long haired men are all potential victims of this pitiable nut. The streets are more than lousy with them these past years. This one does this: He pulls the victim down to the asphalt and applies chloroform via a sanitary napkin. This behavior has been described many times by his shaven subjects. Some say he mumbles in a barely articulate manner when he works his magic with exacto knives and manual clippers. He has not injured anyone beyond minor abrasions and superficial cuts, although an overdose of chloroform has killed one young Negro boy. Some say he mumbles his name, which they say sounds like Ozalo, perhaps Oxward or Oswald. Police are fearful of what they might find when the hair thief is finally caught and the apartment entered for searching.

The old man said son you don't respect womanhood yet. You've been on this earth for 30 some odd years my lovely daughter tells me. I'm going to give you some experience and make you wise.
