

View of the Bird Range, Museum of
Natural History, University of Kansas,
Lawrence, Kansas.

July 27, 1964

Note the convenient work surface
formed by the tops of these museum
cases.

These cases are top-quality, all steel
units. They feature double-wall con-
struction, channel reinforcements, solid
aluminum doors, and air-tight Buna N
Rubber seals.

All this at a price you would expect
to pay for wood cases.

This is only one member of our fam-
ily of fine Museum cases. May we
send you a price list and additional
information?
