

It is a very common mistake to suppose that the only way to
improve the mind is by the study of books. There is a vast
field of knowledge to be gained from the observation of
nature and the study of the human mind.

THE HISTORY OF THE WORLD

The history of the world is a vast and complex subject, which
cannot be fully understood without a knowledge of the
principles of human nature and the laws of society. The
study of history is therefore a necessary part of the
education of every man. It is a study which
teaches us the lessons of the past, and which
enables us to understand the present and to
prepare for the future. The history of the world
is a story of the struggles of the human race for
freedom and justice, and of the triumphs of
wisdom and courage. It is a story which
inspires us to the highest virtues, and which
teaches us the value of the human soul.
