

ary, heard
ed in the
e probably
breeding-
ranches of

t; but by
hin range
is female,
intruder,

as well as

cademy of
ed on the
ther bird.
Bay which

the back,
green, the
remainder
e metallic
e centre of
ons under
is again
k purple;
der wing-
ris nearly
3.5 inches,

back, the
rown, the
feathers;
ide of the
body dull
imen 1.95,

ngier than
ear-coverts
hite, very
from the
on to the

age of the
y a moult.
