

CALLIPEPLA ELEGANS

By J. H. H. H.

London: 1854.

This work is intended to be a complete history of the genus *Callipepla*, and to contain all the known species of the same.

The first part of the work contains a description of the genus, and a list of the species. The second part contains a description of the species, and a list of the localities where they were found. The third part contains a description of the species, and a list of the localities where they were found. The fourth part contains a description of the species, and a list of the localities where they were found. The fifth part contains a description of the species, and a list of the localities where they were found. The sixth part contains a description of the species, and a list of the localities where they were found. The seventh part contains a description of the species, and a list of the localities where they were found. The eighth part contains a description of the species, and a list of the localities where they were found. The ninth part contains a description of the species, and a list of the localities where they were found. The tenth part contains a description of the species, and a list of the localities where they were found.
