

Scorpion - not the Great Scorpion

*Myosotis palustris*

Class Pentandria

Ord. Monogamia

Nat. Ord. Boraginaceae

Borage tribe.

called

Also Mousse ear. Grows in Asia & North

America eight native species, all with <sup>of this genus</sup> blue blossoms.

The field Scorpion grass

found in fields is called a *Myosotis arvensis*

The name of the genus is from two Greek

words *sig. moude* & *ear*, from the shape

of the leaves.
