

LETTER TO THE EDITOR

By the Editor

The Editor of the *Journal of the Royal Society of Medicine* has received from the Hon. Mr. J. B. Esdaile, M.P., a copy of a paper on the "Influence of the Climate of India on the Health of Europeans," which he has been good enough to send me for perusal. The paper is a very interesting and valuable contribution to the knowledge of the effects of the climate of India on the health of Europeans, and is well worth perusal. It is a paper which every one who is interested in the health of Europeans in India should read.
