

IRILLANTHRA LUTETIA

PLANT. IN FLOW.

The first of the plants of the genus *Irillanthra* which I have seen in flower is *Irillanthra lutea* (L.) DC. It is a small plant, with a single stem, and a few leaves, and a few flowers. The flowers are yellow, and the leaves are green. It is a very common plant, and is found in many places. It is a very beautiful plant, and is very useful for many purposes.
