

ALGANTER SCIENTIA

Journal of Science

Volume 10, Number 1, 1911
Published by the
American Association of
Scientific Workers

The purpose of this journal is to provide a medium for the publication of original research papers in the various branches of science. It is intended to be a vehicle for the expression of scientific ideas and to serve as a record of the progress of science.

The journal is published quarterly, and each volume contains four issues. The papers are arranged in alphabetical order of the author's name, and are grouped into sections according to the branch of science to which they belong.

The journal is open to all scientists, and no restriction is placed on the nationality or residence of the author. The papers are accepted for consideration on the basis of their scientific merit, and are not subject to any editorial review.

The journal is published by the American Association of Scientific Workers, and is distributed free of charge to all members of the Association. It is also available for purchase by non-members at a special price.
