

THE HISTORY OF THE

EMPIRE OF GREAT BRITAIN

The first part of the history of the empire of Great Britain is the history of the island of Great Britain, which was first discovered by the Romans, and was then called Albion. The second part is the history of the island of Ireland, which was first discovered by the Romans, and was then called Hibernia. The third part is the history of the island of Man, which was first discovered by the Romans, and was then called Manica.

The fourth part of the history of the empire of Great Britain is the history of the island of Jersey, which was first discovered by the Romans, and was then called Jersia. The fifth part is the history of the island of Guernsey, which was first discovered by the Romans, and was then called Guernia. The sixth part is the history of the island of Alderney, which was first discovered by the Romans, and was then called Alderneya. The seventh part is the history of the island of Sark, which was first discovered by the Romans, and was then called Sarka.
