The propriety of a  
 authority of A. G.  
 Department of the  
 killed in Ireland.  
 Mr. Glenon, a bird  
 the county of Meath  
 The bird was, I believe  
 specimen, the plumage  
 the bird seems to  
 to rest on the Ca  
 attention may have  
 Black Redstart  
 Quite recently, in  
 Dresser have thro  
 in their 'Birds of  
 specimen of the  
 on the unfortunat  
 away from its natu  
 an examination o  
 previously prepar  
 renee of the bird  
 highest northern  
 myself of the opp  
 preservation, and  
 circumstance whi  
 probably have giv  
 specimen. I may  
 than there is of  
 sooner or later th  
 since it is dispers  
 to the south and  
 In many respect  
 is unusual; and  
 writers it is supp  
 from what I saw  
 the flat-roofed ho  
 the Maltese grou  
 abundant; and i  
 of *sylvaticus*, had  
 I have stated  
 south of German
