IN MEMORY OF RICK'TIGER' DOWDELL

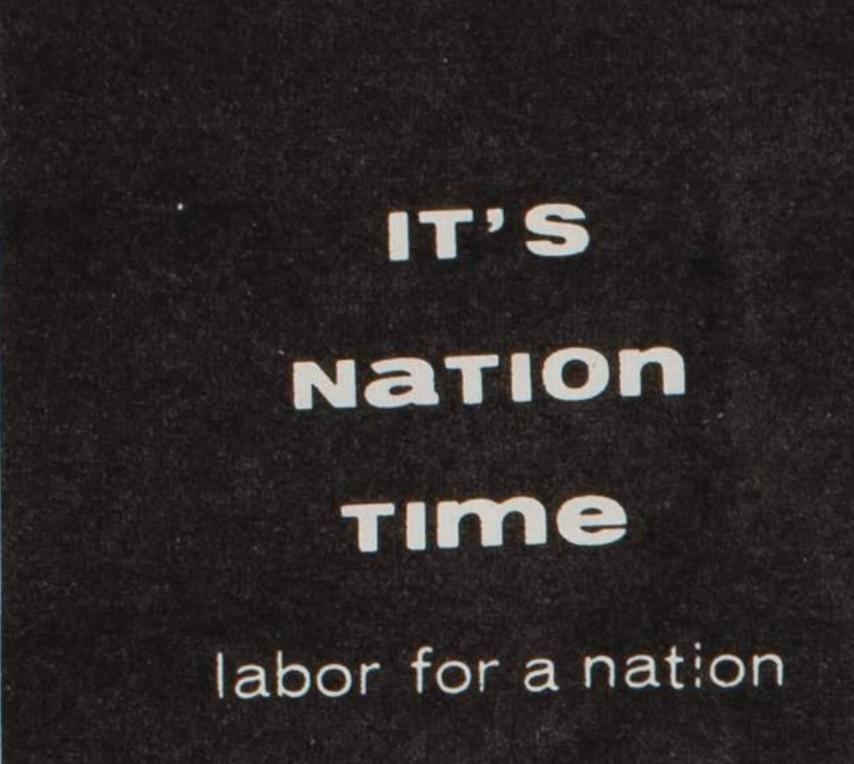

THE TRUTH PREVAILS

On July 16th, at approximately 10:15. Brother Rick Dowdell was brutally murdered by one racist pig William Garrett. There was supposedly a high speed chase (involving a volkswagen in a two block area) and Rick suppose ly ran in front of the police car with what was called a long barrell gun which gave rise to the pigs socalled justifiable homicide. Garrett had told the Dowdell brothers, "I am gonna kill one of you Dowdells yet." For the bufoon pig has given traffic tickets to almost every Dowdell broth and when the opportunity arose, the lackey bastard killed Rick. The enti Black World is aware of what Garrett has done and he shall reap what he has sown.

The hog Attorney General recently returned a report gathered by his how pen of lackeys, the Kansas Bureau of Investigation, that contained lies on top of lies about Ricks death. Any Black person reading that B.S. should realize the people that wrote it are the ones that helped make the ruling of justifiable homicide. The contradictions were that pig Garrett supposedly fired only four shots but it stated five had been fired. There was supposedly not a fingerprint found on Ricks gun. So the pig quite easily after murdering Rick, picked up the gun and removed all prints and fired it in the air. How long will we tole: ate destruction of young Black lives? Brother Rick was a true African Revolu tionary and he realized that being a Revolutionary meant that his life cou. be taken at any given moment. His brothers found this letter written by Rick two days before he was murdered. It reads as follows, "Dear African People, This might be my last night so what I am writing is valid. Anybo who is having some money spent on me it is all yours. I want you to know that I am doing a Revolutionary thing My best wished are that all of my people make it back home.

WE ARE AN AFRICAN PEOPLE

WE SHALL WIN!

What "WE ARE AN AFRICAN PEOPLE, "means

"We are an African People," we are descendents of African people, as Brother Malcolm X taught us, "If a cat has kittens in an oven you don't call them biscuits." Just as all europeans whether they be so-called americans so-called french or so-called russian or whatever title they hide behind, they, by their origin are europeans. They nationalize (hide) themselves as americans, frenchmen, etc., to hide their true identity, primarily because of the atrocious activities they participated in during past history as well as the present. Their origin is from europe. . . criminals, prostitutes, vagabonds, liars, cheats, religious fanatics, hypocrites, sexual perverts, etc. . . they are all white:

African people no matter where they be originated from the continent of Africa. This truly identifies us and confirms the fact that we are Africans and are not nationalized americans, germans, frenchmen or a part of any negative nation. We do not owe our allegiance to any european country, but to Africa only.

Nationalizing is creating a nation of people; African People: African Nationalism means owing our allegiance to Africa -- not america. One nation -- Africa:

Pan-Africanism is the concept of one world-wide African Nation. Like the Indian nation in North america, if an Indian was asked what he was, his response would be that he was an Indian. We are from one particular nation, the African nation:

Wherever on the face of the earth Black people may be, they are a part of the African Nation, and "WE ARE AN AFRICAN PEOPLE."

"Nigga: You say you ain't left nothing in Africa, why you left your mind in Africa:

WHAT IS BYOC

THE BLACK VETERANS ON CAMPUS is a student community organization whose sole purpose is the betterment of conditions for all Black Veterans.

We realize the importance of going to the white university to gain techincal skills. For technology is of uttermost importance to our Black Liberation Struggle here in Amerikkka

Having served for the country we have gained skills from making dounuts to demolisions and all of these skills are needed in the making and preserving of the African world.

We are making every effort to keep current records on all G.I. benefits (home buying, small business loans)etc. we hope that every Black veteran takes advantage of this organization. We sent applications to everyone listed in the Black directoryand would greatly appreciate recieving them. Anyone who hasn't recieved one can have one sent to you by sending your name and address to B.V.O.C. Room 113B Kansas Union Lawrence Ks. and we will be more than happy to send you an application. We are anAfrican people. We gonna survive America. Monty Beckwith

LET US NOT

FORGET

Once again the oppressor thinks that he has pulled a game on the people and once again he is mistaken. The murders that were committed during the weeks of July 13 thru 24 have been surpressed in the mass media by the civil rights issue of Gary Jackson the assistant dean of niggers at kanas university. It seems Jackson was fired after the newspapers broke a story accusing him of buying ammunition the day after Rick Dowdell was murdered in cold blood. As always the man has tried to pick the issues that the people move on. His mammoth campaign to confuse the issues has failed. People everywhere know that the issue is not wheter racist regents have the right to fire Gary of his b.s. gig that merely concessionary tokenism to begin with. For there are several other Blacks who are in the positions the Black Student Union demandedand recieved, who aren; t using their positions as Black People hoped they would. They are merely passing the word that whites tell them as to why Black students can't be admitted or why they can't recieve financial aid . For if the others who were hired along with Gary had heart and guts they would have all expressed some type of unified protest to the University adminstration and the racist regents. So the handerchief heads had better get their s--t together and do what we got them jobs for or give them to peple who aren't afraid to apply pressure where it hurts.

The issue surrounding gary's firing is one of civil rights the one of Rick Tiger"Dowdell is one of human rights or human life. For we are now at a point where we are in a life or death struggle not a 1960 civil rights struggle.

Remember Brother Malcolin

"Education is an important element in the struggle for human rights. It is the means to help our children and people rediscover their identity and thereby increase self-respect. Education is our passport to the future, for tomorrow belongs to the people who prepare for it today."
