Lawrence K. T. Feb 11. 1858.

Dear Sir and Mother.

As I promised to write again in a few days, in my last I have thought it about time to do it. Nothing of any interest has transpired since I wrote you last. The Legislature will adjourn in a few days. They have rejected all Bills passed by the Topeka Legislature, but still they proceed very Energetically in their business and I fear they will make the Limitary in any better Condition as to laws than it was before they have rejected and passed and enacted them all in such manner that it will be hard to tell what laws are in force.

I got a letter from Geo. a few days ago. He spoke of selling the Mill Land as I said in my last it is a very bad time to sell land when every thing is down, and then having to wait so long as only 10 per cent in hand. I think it is my best to make profits in very little time and advancing yet I have sold all your warrants but one. I sold the three 160s two months ago for $150 each and 4 per cent per month interest. I sold H. 160 for 10 shares of stock in our town and one 160 for $160 with 5 per cent per month
