A life in every particular accords strictly with his profession
& theory as a man of God & faithful Minister of the
Gospel -

the Church prospers under his pastorate & every thing
in connexion with the Church is flourishing - what
would be the surprise & disgust of the members of the
Church if they found that through the influence of
a disgraceful rabble not member of the Church they should
have their pastor taken from them & replaced by a man
whose theory & practice was most repugnant to their
feelings & conscience.

take another view of the case here is an individual
who have been struggling against a disease very grievous
to be born an eminent physician is recommended &
sent to him he soon begins to revive under the physician
proper & salutary treatment of the disease & rejoices in
the hope of recovery - by some unaccountable means resorted
to by his enemies he is deprived of the services of this
good physician & a Quack Doctor takes his place & through
the detriour & bad effects of Ostension the patient
begins to languish & die.

3rd here is a General who have often led his troops to
glorious victory he has but to wave his sword & cry forward
& they will follow him under the most appalling & alarming
circumstances because they have faith in their leader
they love him they would die for him.
