Highland P.O. N.J.
Oct. 26th, 1857

Gen. J. Bayless

Dear Sir:

Anxious to hear
from you and still more to see you
Highland is looking up and going forward
cheerily but we need your presence
daily. Men are expending about lots
and shares and wish to secure an
interest when they can. The new brick
house makes a fine appearance and
impression but my mind to have
it finished very much and we are
very anxious to know if you are con-
-ing to occupy it as a landlord for if
you do not Mr. Hubbard from The Depot
most likely would be willing to do
so and he would make an excel-
-lent landlord

Mr. Bailey from Ill. has been
here and is pleased with the prospect and
agrees that the educational interests of
Highland are of great promise. What
do you think? We propose to build a
seminary building on the seminary
