

him to bring it to me. thought what I said was asking
but he does not put in an appearance - Knit & read as
usual. Shoveled a path to privy - See no one - ♀

Tues 28.

Stormy - snow melts almost as soon as it falls. Made
a tin of biscuits - a collage pudding cake & melted a little
granulated sugar for molasses & candy. Called at Art's
Store - Derby brought my mail & left it between the
nutting door & door - 2 Sanford's Censors - a Unity & letter
from Badio - Called on Mrs Green & she let me take a
daily & Telegram & Times to read. She says she feels miserably
sick - but drives herself to do the Simmons work -
Knit - read in Jeremiah. ♀

Wed 29.

Squally & rainy P.M. so the water dropped in bow window - Called
on Mrs G. a few minutes - to lend her 10cts to buy papers.
She is cooking for Thanksgiving. but does not feel
able - Mrs Simmons plans the dinner & has no
money I judge - I saw two loaves of bread two pies -
mince & quack - a loaf of fruit cake & a loaf of layer
cake & there is to be chicken & vegetables - I got 2
more bottles them home & washed the four. Finished
the 3rd sock for Claude & "set up" the last. Read in
the G's papers & studied puzzle. Read in Jeremiah ♀

Thurs 30

Pleasant - but muddy - Made baking powder bread
& a tough short cake. opened a can of peaches
Scrambled an egg in water - That was my Thanksgiving
dinner & I was not as thankful as I ought to be. I felt
lonesome & knew there was no one to care whether I had
any dinner & I sobbed over the thought & my kitten
looked up in my face astonished. The little cat went
over to Simmons & found a chicken bone that the
puppies had eaten all they could of it, & brought
it home as ~~precious~~ as could be - how I pitied
the little thing. She went over again & got a piece
of the skin of the neck. and I was thankful for
that if for nothing else. Knit & read as usual.
Mrs E. Cummings & her daughter Jennie Brooks
called awhile this evening & I am thankful for that ♀

Fri Nov

Dec 1st

December 1893.

Ground white this morning & snow descending
