

he would have killed allofthem
but he saved let them be punished
by law this man I am well acquainted
with him he is one of the
nobelst men that I ever saw
he can command 5000 men if
he so wants to he is said to be
one of the likelest men in kenias
I knew that he went to port
scott and looked out benjamin
rice from the pro slavery prison
for they said that they would
kill him be cause he was a free states
man & montgomery with 68 men
went there and liberated him from
them and whilist so doing the pro
slavery men thought they would
play hell so one d—d fool
fired at one of the boys slitley wounded
him and so in return one of the boys
shot the pro slavery cuss through
the head. this is just as it was
the hertford times said that there was
6 men killed and that the capt of had
2 of men. that is all I know some of
the boys that were there.
