attack of the bilious but he is very
much frightened not being used to

disease came over his eye which ^{is} usual
in Bilious attack he says Oh dear my
sight is going from me I addressing
himself to me says Oh do stand by
me in my dying hour - I assured him
I would & although I had no medicine
to suit his case myself it should be
obtained from the captain Medicine then
& I have great hopes of his recovery the
