Boston - January 6. 1932 -

To the Library of
the State University. Lawrence. Kansas -

as a small boy I recall my father saying,
"John Brown was in my office today and
I told him to have his picture taken. He
may be famous some day"

This photograph was on our table many
years and I am disheartened. A few weeks
ago it turned up among some papers and
I had a few prints taken -

My father's interest in Lawrence Kansas
and in John Brown of whose methods however
he did not approve leads me to present this
to the Library

William Lawrence -
