"WITH THE COLORS"

Somewhere in England.

6/2/1918

Dear Father and Sisters:-

I arrived safely overseas.

Must say I enjoyed the trip from the time we left our camp in Okla. until we landed at our present camp. And more too, I never got sea-sick, sick of the sea or fed the fish on our trip across the salt-water pond.

What short time I have been here. I have had the pleasure of seeing much of this beautiful country. Was out walking this evening and I strolled over to one of the big estates nearby... It is just as Raymond Flory

stated, "very well kept
up and I one of the very
beautiful countries." Every thing
is kept "up-to now" in the
way of farms and highways
but, the railroads with
little toy like engines
and coaches divided into
sections seem so much
different from the R.R. in
the U. S. A. The heavy
truck horses are generally
driven tandem instead
of abreast, and on the left
of the streets. In fact
every thing is a bit
different here, even, the
caddies are not as they
are in the U. S. A. But
the change of scenery and
customs makes quite
a novelty for us "Bloody
Yanks" as the English
call us. The word "Bloody"
being used over here instead
of the familiar "Damn" as
in the States.

"WITH THE COLORS"

To date I have not received any mail from the States. But by the time you receive this I possibly will have.

When writing, please mention all of the latest scandal "from me home town" and all news of interest.

Tell Mrs. Dyer I have not been able to visit with her sister yet, but hope to be able to before I return. Ray. F. is another "Yank" I have not seen. But tell his "Mary" not to fear him leaving her behind.

Many things of interest of our very big land this country I would like to write about, but

owing to the censor will
have to wait until I return
to tell you.

Alvord all, I have the
best of health on a good
appetite and hope this
find all well at home.

Give my regards to all.
With I love to all
I close

Your son and bro.
