

dinner, French style to be sure and some feed
I want you to know with plenty of wine. I
was carrying her pocket book. Before I left.
Don't misconstrue that. I carried it at meal time.
She wants me to spend my furloughs at her
home, but latest dope out I will have us in
the States before I get a leave.

Am enclosing a letter which Ray Flory
sent me at Dogpahan and it was then
forwarded over here again. I have not heard
directly from him over here, but am expecting
a letter daily. Don't know whether he is in
England or here.

Received four letters from you last Thurs.
dated 5/31, 5/28, 6/14 and 6/17. We get mail about
twice each week.

You spoke of the French girls. Yes, some
very beautiful but taken as a bunch, they
are no comparison to the Kansas girls.

Sure a bunch of Summer Co. boys answering
the call to the colors, but they are too late to
see any active service.
