

She is of age to get married without parental consent. But I want her family 100% behind her also, exceptance of me into her family whatever the degree. One thing is for sure, "we are going to be married". Regardless of either families degree of exceptance. We both feel that we have our own lives to live, and no-one can live them for us. And we are going to spend them together, "God Willing"!

You mom and daddy already know the added trouble you both recieved from your own parents as to your own choice of marriage partners, right! So I want to avoid that same mistake in the early stages of our marriage. If I don't have all of you behind me 100% then I'll stay on here on Okinawa as long as I can or some part of this world some place.

Write as often as you may want on the subject of my future marriage all that you want, but let it be only the TRUTH and only the truth.

Well I try to write you guys again as soon as I have the time to do so. But my handwriting is so irregular most of the time. I wish I had a typewriter here with me at times.

Keep up the faith! And God bless each of you in a very special manner. And also all parties concerned in this important matter of state.

Hisami and my love always,
James Earl

P.S. Those ^{China} dishes you wanted that have either a red or green trim cost from \$79.⁰⁰ to \$100.⁰⁰ and about \$15.⁰⁰ for mailing cost to the states. This is for a service of 8 only!

P.S.S. Tell my favorite sister Priscilla that I am still going to get her birthday present in the mail. I forgot all about her birthday the 7th of December. I only remembered her birthday around the 15th or 16th. But I am sending it tomorrow afternoon. Like I said I've been busy here at work lately!
