

Seems she was expecting
 you to come back to her shack
 and when Ollie said that she
 had plenty room in what
 Net knew was abbreviated quarters
 it made her sore. I was glad
 Ollie told her that. Viola has
 finished her house out here
 but will not get in for sometime
 They had to buy a house in Laputa
 to get some place to move, so I
 doubt if they can move before late
 summer. They thought that they would
 stay where they were after the property
 was sold but the fellow decided
 right in mid winter to take over the
 place and they were compelled to move
 Mae has another grand baby a girl, so
 Elbert Craig has two children and I have
 three great grands. Lois + little boy are
 with Mae. Hoattie and Chester are
 doing fine their hens are begining to lay
 she carried in a $\frac{1}{2}$ case yesterday
 Chester is tickled to death with the
 prairie + likes to gather eggs. He marvels
 when he goes into the cave to see enough
 came stuff to last till came again
