Dear Cousin Gene;

We received your letter
It made us all happy to
hear a good report. As every
body doing well. So far the
winter has not been bad
though we have had ~~quite~~
quite a bit of zero weather
I have not been able to go
to Denver to see Maud but
I shall go when I can.
She is still under the
Doctors care. Of course he
will not make her leave
as long as she is able to
grunt she is better off in
Denver than Chicago for
some one there is interested
