My dear Uncle,

We have been attending school every day and I am fond of my teachers they are most courteous to me. Uncle I want to know if you all have summer school in Kansas I mean in the towns or in the country the reason I ask you that I heard that any-one holding a certificate as a graduate from common schools could teach in Kansas if so I would like to teach there this summer. Will you please investigate that matter? and write me as soon as possible. all joins me in love to you and family.

So I remain your loving niece
Lillian E. Phillips.
