The Agricultural Stabilization and Conservation Service follows the practice of sending each producer a statement (Form CCC-182) at the end of each year, advising him of the amount of direct payments made to him, or for his account, under certain programs administered by ASCS. Such statements for the calendar year 1968 have been mailed. Some payments could not be completely identified in time to be included in the CCC-182 statements. We have found that program payments, as shown below, made to you or for your account, ~~were not reported to you on Form CCC-182.~~ may appear on the CCC-182 because payment was made after December 20, 1975.

Program	Amount
XXXXXXXX	
1975 Feed Grain Disaster Program	\$241.56

The amount indicated above, in addition to any amount previously reported to you on Form CCC-182, will be reported to Internal Revenue Service, as required by law. This is furnished to assist you in preparing your income tax return.
