## NICODEMUS HISTORICAL SOCIETY Preserving Our Historic Past

for Future Generations

## Why Nicodemus?

The Nicodemus Historical Society is pursuing National Historical Site status for Nicodemus, Kansas, the only remaining all-Black town established (1877) by "Exodusters" during the post-Civil War western migration. National Historic Site status will ensure federal support in the preservation and restoration of Nicodemus, establishing it as one of the most historically significant sites west of the Mississippi River.

Support our preservation efforts. Send your tax deductible contribution to:

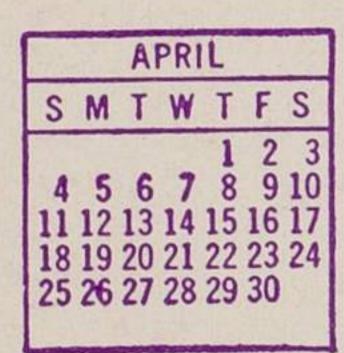

Nicodemus Historical Society Post Office Box 139 Bogue, KS 67625

Your \$50 contribution entitles you to membership in the Nicodemus Historical Society and a copy of Promised Land: Black Settlement at Nicodemus, KS published by the National Park Service, U.S. Department of the Interior.

### JESUS LOVES US

Do you wish you could see Jesus? You can see Him, some day. Jesus is in heaven, now.

But He thinks about us, and loves us, while we are here, or playing next door, or down the street. We know He is, because He promised He would be. He said, "Lo, I am with you alway."

God loves us very much. He gave Jesus to us.

Here is Jean looking at a book. It is a Bible story book.

Jean likes to look at pictures of Jesus, and hear stories about Jesus.

Can you color the picture carefully?

The Bible Story: Matthew 28:20b.

Memory Verse: "Let the little children come unto me."

## Federal Land Bank Association

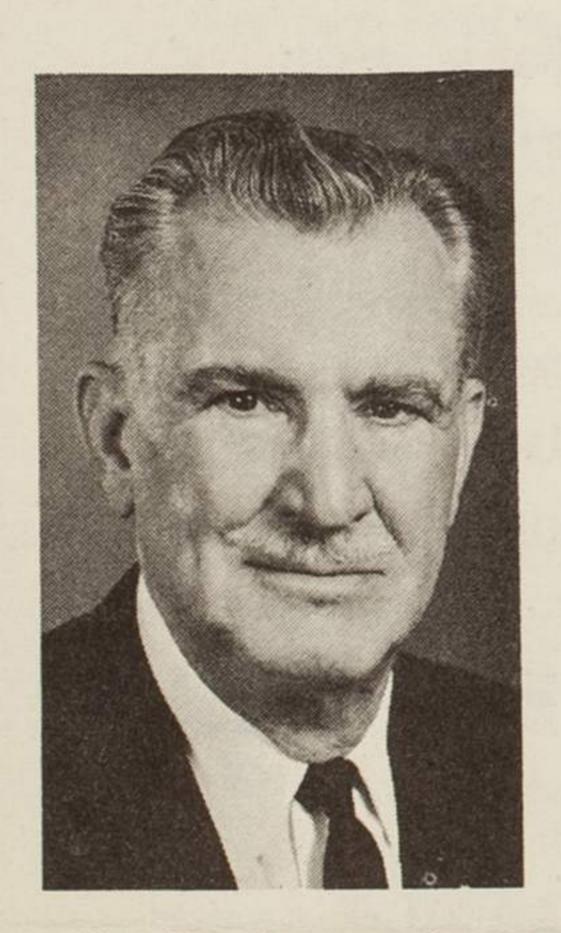

NO. 2

## "THE OPEN END IS COMING"!

By Wm. G. Plested, Jr., President of The Federal Land Bank of Wichita

The Open End is Coming refers to the new open end loan plan. This plan is structured to allow farmers and ranchers

to conveniently use their real estate mort-gage credit to a maximum advantage. Within certain guide lines, funds can be borrowed, repaid, and reborrowed. This is advantageous to many agricultural producers since it saves money by eliminating certain abstract and recording costs when funds are reborrowed. Also,

idle funds can be applied against the loan to reduce interest cost. As a member of your Federal Land Bank Association, you will want to understand this loan plan. It may be one which would be a tremendous benefit in your own operation, and if you understand it, you will be able to explain how it works to a friend or neighbor. I suggest you visit with the folks in the association office to determine what this plan can do for you.

The District Federal Land Bank Board, at their October meeting, approved reducing the interest rate from 9% to 8½% on the variable plan on all applications for new loans taken on and after November 1. This reduction in rate was made possible by recent changes in general economic conditions. Not only will loans made on and after November 1 have an 8½% contract rate on the variable

plan, but all 9% Land Bank loans made during the past year will be reduced temporarily to 8½%, as well, on installments maturing on and after January 1, 1971. This is a unique practice in long-term lending, but it is in line with the Bank's policy of providing credit at the lowest cost possible. The Federal Land Bank of Wichita has voluntarily reduced the interest on loans outstanding on four previous occasions in its 53 year history of operation.

The availability of money has improved during the past few months. . .most indicators suggest there will be ample long-term and short-term credit for agriculture in the immediate months ahead. Many financial advisers are telling their businessmen clients, which includes farmers and ranchers, to take a hard look at their financial programs. If adjustments are required, the present credit relaxation should be an advantageous time to finance for the months and years ahead.

Frequently we are asked if farmers can afford to pay today's interest rates. Farm management records will substantiate that there are those who can afford present day cost of money. The present time is thought by many people close to the money markets to be a time for setting up debt on a long-term base, providing as much liquidity as possible.

All new Land Bank loan plans are being written on the well accepted variable interest rate plan. It provides for a guaranteed rate on the new loan for one year, after which the rate becomes variable and fluctuates up or down according to economic conditions. This plan will benefit the borrower since the

Land Bank will now be able to set long-term loan rates with more confidence and will be able to lower rates more quickly with the knowledge that the rate can be adjusted later if the economy demands. The plan is backed up by the Land Bank's record of lowering interest rates on existing loans on a number of occasions in the past when economic conditions permitted.

On November 1, the Land Bank introduced the blended rate loan. This is a plan structured to assist present Land Bank borrowers who need additional funds. The blended rate will be assured for one year. At the end of this period, the loan will be subject to the variable interest rate plan.

We are constantly studying ways in which our long-term credit service can be improved. We recognize continued changes will be required to provide modern long-term credit geared to the 70s. Many of you probably have read the September Successful Farming which contained a seven page bonus on farm credit. This article pointed out a Michigan study which compared farmers who made fast gains in net worth with farmers making slower gains. "One big difference: The 'fast gainers' used three or four times more credit as the other farmers in the study! The moral: Used wisely, borrowed money can give you the leverage you need to get ahead faster."

A SUCCESS STORY about a Land Bank borrower is found inside - although it may be quite different from your operation we think you will find it informative and of interest.

SUCCESS IS THE CROP WE CULTIVATE

# HOMESTEAD BECOMES A HERITAGE

Mr. and Mrs. Edgar Crossland and their nine children is still standing on the Arlie Crossland family's present ranch. Arlie, a son of Edgar, grew up on the homestead. The home had a full basement, a 400 square foot living area, and an attic bedroom. "It was crowded at times when all the family were home, but we really had fun together," reminisced Arlie.

immediately applied for a loan from the two-year-old Federal Land Bank. On May 4, 1918, a \$700 loan for 33 years was made at 5½% interest. Although Arlie's father was

Woodrow Wilson, Edgar

anxious to enlarge his operation, it was 1928 before he purchased an adjacent 320 acres for \$800. The following year was a devastating one for most Americans, and particularly for Edgar, who had incurred medical wheel. To Arlie R. Crossland, expenses of nearly \$2,000 as a

At that time young Arlie was working for a neighboring rancher. He learned that his born to Mr. and Mrs. Edgar W. employer had purchased a tax Crossland. Arlie was a year old in deed on 320 acres upon which 1914 when his father Edgar had been forced to allow homesteaded 320 acres fifteen unpaid taxes to accumulate. miles northeast of Eckley, Under this continuing financial Colorado. Upon receipt of a U.S. duress the Crosslands applied in

additional Land Bank loan of \$800 and an emergency Land Bank commissioner loan of \$500, enabling them to redeem the tax-default 320 acres. A young man named Bill Olson, who had been appraising for the Land Bank for about two years, made the appraisal for the new loan and determined that Edgar Crossland had assets of approximately \$4,000 and liabilities of almost \$1,000. (Mr. Olson is now the Land Bank regional manager in Eastern Colorado.)

In 1946 Arlie acquired the homestead from his father for \$10 an acre. He had also purchased other properties, heeding the advice of Will Rogers: "Buy land cause they ain't gonna make any more." He then applied for and received a loan on 3,944 acres. Arlie recognized that a farming operation must grow in order to

The Crosslands look through an old family picture album. Pictured from right to left are Arlie; Alice Marie, his wife; and two sons, Raymond and David, who are partners in the farming and ranching operations.

Upper Right:

Raymond feeds cake to the Crossland Hereford herd.

> wheat, corn, rye, alfalfa, and grain sorghum for cattle feed.

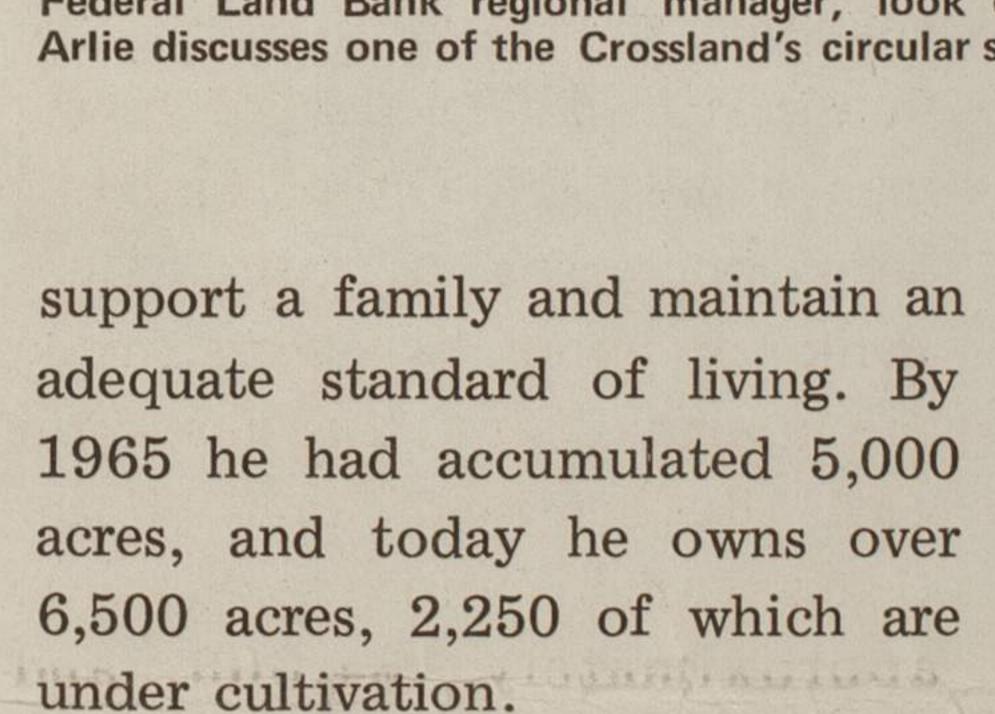

Conditions have changed around the old Crossland homestead. A year's taxes on the 640 acres almost resulted in losing 320 even on a calf today. Increasing \$4,500 a year in county taxes. capital. I think we, as well as Paul, was killed in an automobile The appraisal report written in others in the area, will be using accident several years ago. 1935 showed an average yield for more credit in the future. My Raymond, 32, and David, 25, are corn of five bushels per acre. family has used credit as a tool "Last year, in spite of a bad hail, for expansion and farm The diversified farming the irrigated corn yielded 105 development for many years, and operations consist of bushels to the acre," remarked it has proved a good formula." It Arlie. The assets of the farming is no coincidence that the operations have increased over Federal Land Bank and the 120 times since 1935.

Arlie anticipates that the area

will continue to have a strong agricultural economy as long as the water doesn't run out. "We plan to double our cow herd during the next two years based on more irrigation," stated Arlie. owned by Edgar and which "We need a \$100 bill to break acres of his farm amounted to our cow herd and irrigation \$38. Today Arlie pays over operation will require more Crosslands, as well as many other agricultural families in the U.S., have grown up together.

In a fence row by an Eastern Colorado wheat field stand the weathered remains of a wagon Yuma County farmer and result of family illnesses. rancher, it represents a heritage and a promise of the future.

Arlie is one of the nine children patent, signed by President 1935 for and received an

Arlie and his wife, Alice Marie, have three daughters, Lois, Margie, and Mary, and two sons, Raymond and David. Their son, in partnership with their father. approximately 500 head of livestock, 2,250 acres of dry land and irrigated crops, and about 6,000 acres of owned and leased grazing land. Principal crops are

Mr. Willis Brandyberry was born and raised in Graham County. He attended grade and high school at Hill City. Later he attended Kansas State University at Manhattan and in 1955 graduated with a degree in animal husbandry.

Willis and his wife Effie were married in 1964 and have two sons, Steven and Stanley, and one daughter Staci. Mrs. Brandyberry attended Fort Hays Kansas State College in 1961, and in 1967 received her Masters Degree in Physical Education. She taught in the high school for four years.

The Brandyberrys live 94 miles southeast of Hill City. A new home was completed in 1967.

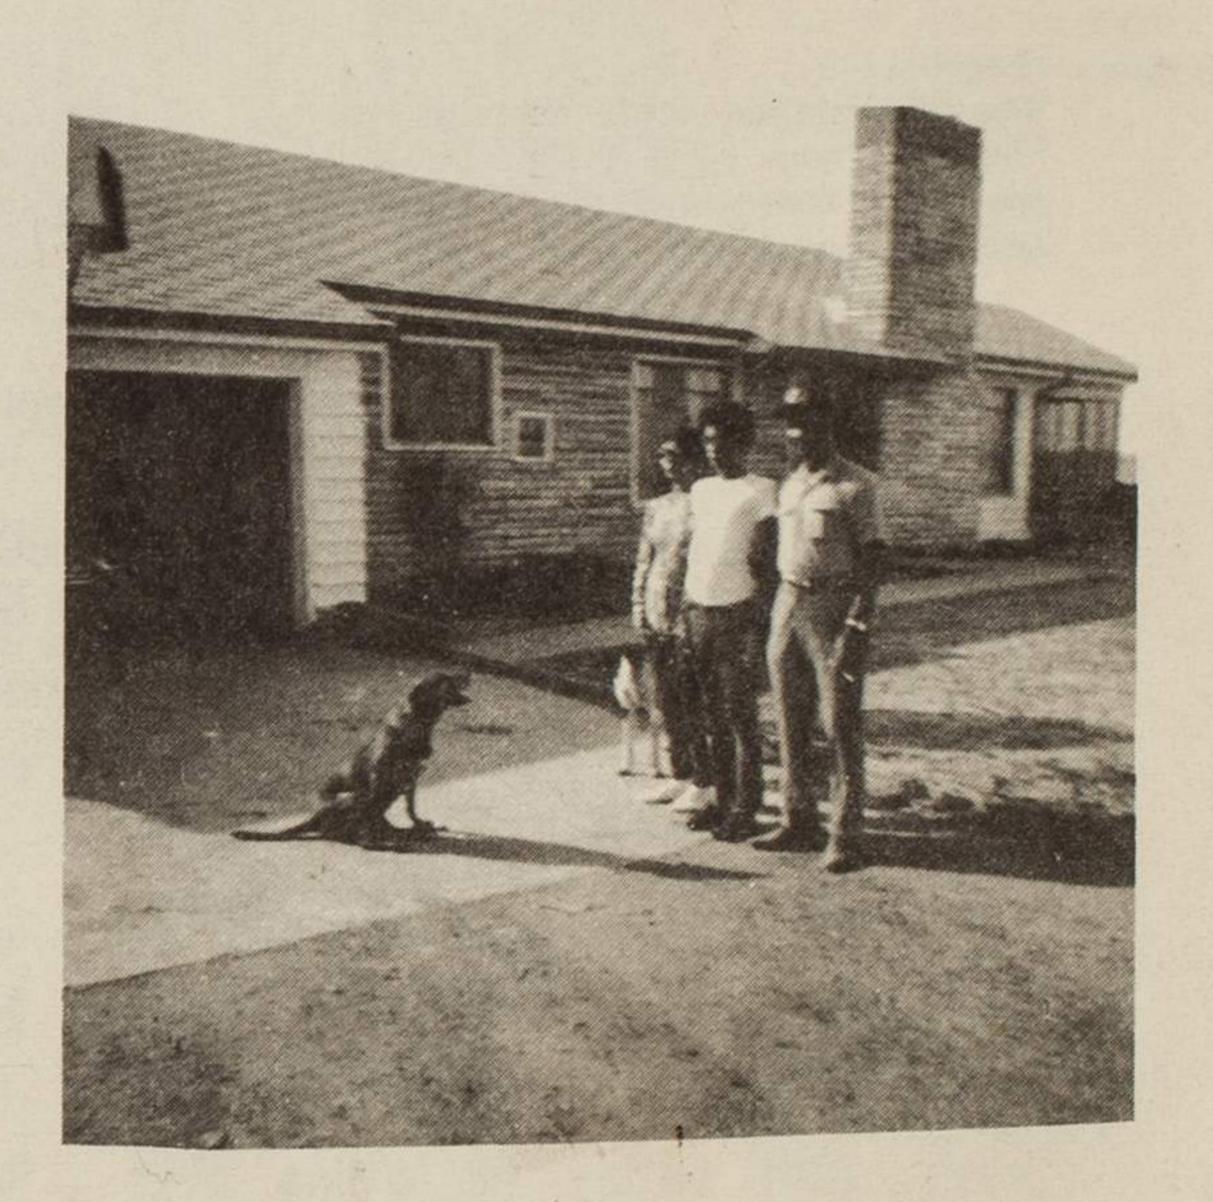

They are presently operating 2360 acres of land of which 480 acres are owned and 1880 acres rented. Approximately one-half of the land is pasture. Major crops are wheat and grain sorghums, main income is from cattle. They like agriculture and are very optimistic as to its future. He is a member of the Masonic Lodge, a district supervisor of the Soil Conservation District, and the family are members of the Prairie Home United Methodist Church. They are members of the Stockton P. C. A. and in 1969 Willis was elected to the Board of Directors of the Federal Land Bank Association of Hays. Mr. Brandyberry feels that the Farm Credit System offers ultimate in financing modern agriculture.

A. G. "Bud" Alexander was born in Graham County, Kansas, attended grade and high school here, graduating from Bogue Rural High School in 1936. He attended Emporia State Teachers College until the serious illness of his father made it necessary for him to return home and help with the farming operations. In 1944 he married Lois Moman.

Lois was born in Hutchinson, Kansas and attended grade and high schools in Leavenworth County Kansas and graduated from Leavenworth High School in 1940, attended Leavenworth Business College, Howard University at Washington, D.C. and worked as Clerk-stenographer in Washington before marrying.

Bud and Lois have two children, Sharyn (Alexander) Dowdell of Topeka, Kansas who works in State Civil Service as a keypunch operator; and A. G. III "Gil", an eighth grader at Bogue Kansas Grade School. They also have one grandchild, David Dowdell.

The Alexanders farm 2300 acres in Graham County, 565 of which they own. They are members of the Red Angus Association of America and have a registered Angus herd and also raise Herefords and Hereford-Angus cross. Mr. and Mrs. Alexander have been members of the Federal Land Bank since 1956, Bud at one time being a member of the Board of Directors. At this time, he is an ASC Committeeman for Graham County, a member of the Graham County Fair Board and Nicodemus Township Trustee. The family belongs to the First Baptist Church of Nicodemus. Lois also works part-time as a justo-writer operator for the Hill City Times in Hill City, Kansas. Their main hobby is bowling.
